IRVING TAYLOR,	<i>Second Deputy.</i>
JAMES C. EMERSON,	<i>Third Deputy.</i>

The Commonwealth of Massachusetts.

OFFICE OF CONTROLLER OF COUNTY ACCOUNTS,
8 BEACON STREET, BOSTON, Jan. 15, 1914.

To the Honorable Senate and House of Representatives.

In compliance with the provisions of section 1 of chapter 211 of the Acts of 1905 I have the honor to present the twenty-seventh annual report of this office, covering the year ending Dec. 31, 1913.

STATE RESERVATIONS.

The six State reservations, Deer Hill, Greylock, Mount Everett, Mount Sugar Loaf, Mount Tom and Wachusett, including in all about 12,500 acres of land, were carried by the Commonwealth in 1912 at a total valuation of \$215,679.14. For their maintenance the counties have expended about \$200,000. Three of the reservations are controlled by commissions appointed by the Governor; two by commissions made up of the county commissioners of the counties where the reservations are situated; and the other by a commission of the two boards of county commissioners of adjacent counties.

Five of the reservations are supported by appropriations made with the approval of the county commissioners, and in the case of the sixth, the commission, appointed by the Governor, estimates the amount necessary for maintenance, and under the provisions of the act establishing the reservation this amount must be included in the annual estimate of the county commissioners, whether they approve or not.

The revenue derived from the reservations is very small, although they could be made of great value in forestry. Some of these reservation commissions formerly rendered no account of their expenditures to the county treasurer. In

several instances the expense of maintenance was paid from the miscellaneous appropriation. We now require a separate item in the annual estimate of receipts and expenditures made by the county commissioners and a report of the commission's receipts and expenditures is filed with the county treasurer.

It would seem as if there should be a general law relative to these reservations, providing for a uniform manner of making appropriations for their maintenance and development along economic lines.

BERKSHIRE REGISTRY OF DEEDS.

In the reports of this office for the years 1912 and 1913, attention was called to the appropriations and expenditures made for copying certain records in the registry of deeds in the middle Berkshire district. In 1908 and 1910 appropriations amounting to \$3,500 were made by the Legislature. The treasurer paid out \$517.40 more than this amount. In 1912 a further appropriation was made by the Legislature, and with the advice of the Attorney-General the treasurer was allowed to use \$517.40 of it to set off against his overpayments, provided the work be completed within the appropriation of 1912.

This work has not yet been finished, although some little progress has been made during the year. The treasurer is still within the appropriation, and the work can be finished with the funds in his hands.

PROBATION OFFICERS' ACCOUNTS.

A great deal of time has been spent in getting the accounts of probation officers in shape. Many of these officers have been instructed several times, and further instructions are necessary. There is the same lack of uniformity in the interpretation of the probation laws by the courts, and this makes it very difficult to obtain uniform results in accounting by the probation officers.

MEDICAL EXAMINERS.

Section 4 of chapter 24 of the Revised Laws provides that "if he (the medical examiner) fails for thirty days after appointment to give such bond, his appointment shall be void."

Under the present law a medical examiner may qualify at any time within three months after his appointment. The result of this has been that the medical examiner very often assumes that he can file his bond when he qualifies, sometimes two months or more after his appointment. In this case his appointment is void and he has to be reappointed. This occasions trouble in the executive offices, the office of the Secretary of State and the controller's office. The suggestion is therefore made that the time within which he may file his bond be made the same as the time within which he may qualify.

LAW LIBRARIES.

The management of law libraries is in the hands of committees of law library associations, committees of bar associations, and in some cases is intrusted to individuals connected with these associations. Salaries are paid to treasurers, custodians, librarians and clerks, amounting to considerable sums. The total appraised value of the books in these libraries is about \$500,000. Appropriations for the support of the libraries are made in many ways. Some are charged to general taxation, items therefor being included in the county commissioners' annual estimate; some are supported by the many acts of special legislation passed in different years; others receive the \$2,000 or a less amount under the general law, and also such further amounts as the county commissioners see fit to allow them under the same general law; and in some counties the treasurers were accustomed to pay library expenses from unexpended balances.

All these libraries should be incorporated and the appropriations for their support made in the same manner. Where there is more than one library in a county each should have its separate appropriation in the commissioners' estimate,

charged to general taxation. Clerks of courts fees should go into the general income of the county.

The foregoing recommendation has been made before by this office, but the proposed legislation has been very strenuously opposed by bar associations established and receiving their support under the provisions of special acts of the Legislature. The contention of these associations has been that they are sure of the amounts fixed by these acts, and fear that the commissioners might reduce their allowance in case they had authority over the appropriations.

OFFICE SALARIES.

The salaries of the controller and the first and second deputies remain to-day as they were when these positions were established. The work has increased threefold. The additional duties imposed upon the office by the provisions of chapter 35 of the Acts of 1911 in connection with the probation offices has further increased the work to be done. The salaries of the deputies average \$500 less than the salaries of other employees of the Commonwealth whose duties are of a somewhat similar nature, but not nearly so important.

There is urgent need of an additional deputy. The work is increasing rapidly; new legislation will probably place further responsibilities on the office; and further than this, it is advisable that more than one examination of many offices be made each year.

BONDS OF JAILERS, MASTERS AND KEEPERS.

Under the provisions of section 1 of chapter 23 of the Revised Laws a sheriff is required to give bond for the faithful performance of his own duty and be responsible for the official acts of his deputies.

Section 16 of chapter 224 of the Revised Laws permits the sheriff to act himself, or by his deputy, as jailer, master or keeper.

The law, however, requires no bond of the sheriff in his

capacity of jailer, master or keeper, if he so acts, and no bond is required of a jailer, master or keeper appointed by the sheriff. Such bonds should be required by law.

MANUFACTURING DEPARTMENTS OF HOUSES OF CORRECTION.

Under the law the controller's office has no authority over the manufacturing departments of houses of correction. An examination of the accounts of the master of the East Cambridge House of Correction, made in connection with the accounts of the superintendent of the manufacturing department of the house of correction, March 31, 1913, showed that a shortage of \$37,814.67 and a doubtful shortage of \$598.36, existed. The bookkeeper, who had held this position for about twenty-five years, had failed to account for certain checks sent to him by the superintendent of the manufacturing department. His failure to account for these checks began in 1888 and continued up to about the time of the examination.

The Attorney-General has ruled that the accounts in the manufacturing departments of houses of correction are under the jurisdiction of the Prison Commission.

This office is willing to undertake the installation of a proper system of accounts in these departments, and suggests an amendment to the law which will place these accounts under its supervision.

I recommend therefore the passage of the following bills: —

AN ACT RELATIVE TO BONDS OF MEDICAL EXAMINERS AND ASSOCIATE MEDICAL EXAMINERS.

Be it enacted, etc., as follows:

SECTION 1. Section four of chapter twenty-four of the Revised Law is hereby amended by striking out the words "thirty days", in the fifth line thereof, and substituting therefor the words: — three months, — so as to read as follows: — *Section 4.* Each medical examiner and associate medical examiner shall, before entering upon the duties of his office, be sworn and give bond for the faithful performance thereof, in the sum of five thousand dollars, to the treasurer

of the county, with sureties to be approved by him. If he fails for three months after appointment to give such bond, his appointment shall be void.

SECTION 2. This act shall take effect upon its passage.

AN ACT RELATIVE TO LAW LIBRARIES.

Be it enacted, etc., as follows:

SECTION 1. Section four of chapter thirty-eight of the Revised Laws as amended by section one of chapter two hundred and forty-one of the acts of the year nineteen hundred and twelve and by section one of chapter one hundred and eighty of the acts of the year nineteen hundred and thirteen is hereby further amended by striking out the first six lines thereof beginning with the word "County" and ending with the word "proper", and by also striking out the last sentence thereof beginning with the words "The treasurer" and ending with the word "expended" and substituting the following:—For the purpose of maintaining law libraries controlled by legally established corporations and associations designated in sections one and two of this chapter, and to none other, county treasurers shall pay annually to such corporations and associations such amounts as the county commissioners shall include for that purpose in their annual estimate of receipts and expenditures, granted and appropriated by the legislature in the county tax, a separate amount being fixed for each library in case there is more than one in a county. The treasurer of every law library association, and of every bar association having in charge a law library supported in whole or part by the county, before receiving any money from the county treasurer, shall give a bond, with sureties to the satisfaction of the county commissioners, for the faithful application of such money, and that he will make a return annually to the county treasurer, under oath, of the manner in which it has been expended, fully itemizing all receipts and expenditures and accompanying the same with proper vouchers, — so as to read as follows:— *Section 4.* For the purpose of maintaining law libraries controlled by legally established corporations and associations designated in sections one and two of this chapter, and to none other, county treasurers shall pay annually to such corporations and associations such amounts as the county commissioners shall include in their annual estimate of receipts and expenditures, granted and appropriated by the legislature in the county tax, a separate amount being fixed for each library in case there is more than one in a county. All sums so paid shall be applied to maintain and enlarge such libraries for the use of courts and citizens. The treasurer of every law library association, and of every bar association having in charge a law library supported in whole or in part by the county, before receiving any money from the county treasurer, shall give bond, with sureties to the satisfaction of the county com-

missioners, for the faithful application of such money, and that he will make a return annually to the county treasurer, under oath, of the manner in which it has been expended, fully itemizing all receipts and expenditures and accompanying the same with proper vouchers.

SECTION 2. All acts and parts of acts inconsistent herewith are hereby repealed.

SECTION 3. This act shall take effect upon its passage.

AN ACT RELATIVE TO SALARIES IN THE OFFICE OF THE CONTROLLER
OF COUNTY ACCOUNTS.

Be it enacted, etc., as follows:

SECTION 1. Section forty-six of chapter twenty-one of the Revised Laws, as amended by section one of chapter four hundred and six of the acts of the year nineteen hundred and twelve, is hereby further amended by striking out the word "three" in the third line, and substituting therefor the word:—four,— and by striking out the words "twenty-five hundred", in the seventh line, and substituting therefor the words:—three thousand,— and by striking out the words "eighteen hundred" in the seventh and eighth lines, and substituting therefor the words:—two thousand,— and by striking out the words "fifteen hundred", in the eighth line, and substituting therefor the words:—eighteen hundred,— and by striking out the word "and" in the ninth line, and by striking out the words "fifteen hundred", in the ninth line, and substituting therefor the words:—sixteen hundred,— and by adding before the word "payable", in the ninth and tenth lines, the words:—and of the fourth deputy fourteen hundred dollars,— so as to read as follows:—*Section 46.* The controller may appoint, with the approval of the governor and council, and subject to removal with their consent, four deputy controllers. If the controller is disabled from performing his official duties, or if the office of the controller is vacant, the first deputy shall perform the duties thereof. The annual salary of the controller shall be three thousand dollars; of the first deputy, two thousand dollars; of the second deputy, eighteen hundred dollars; of the third deputy, sixteen hundred dollars; and of the fourth deputy, fourteen hundred dollars, payable by the commonwealth. The controller shall be allowed the actual expenses of himself and his deputies incurred in travelling in the performance of official duties.

SECTION 2. This act shall take effect upon its passage.

AN ACT RELATIVE TO BONDS OF JAILERS, MASTERS AND KEEPERS.

Be it enacted, etc., as follows:

SECTION 1. Section sixteen of chapter two hundred and twenty-four of the Revised Laws is hereby amended by adding thereto, at the end thereof, the following words:—A sheriff, in case he acts as jailer,

master or keeper, or a jailer, master or keeper appointed by the sheriff, shall give to the treasurer and receiver-general a bond with such sureties as the superior court shall order and approve, conditioned faithfully to perform his duties, — so as to read as follows: — *Section 16.* The sheriff shall have the custody and control of the jails in his county and, except in the county of Suffolk, of the houses of correction therein, and of all the prisoners who may be committed thereto, and shall keep the same himself or by his deputy as jailer, master or keeper and shall be responsible for them. The jailer, master or keeper shall appoint subordinate assistants, employees and officers, and shall be responsible for them. In the county of Suffolk, the penal institutions commissioner shall appoint a master of the house of correction, who shall hold office during the pleasure of said commissioner. A sheriff, in case he acts as jailer, master or keeper, or the jailer, master or keeper appointed by the sheriff, shall give to the treasurer and receiver-general a bond with such sureties as the superior court shall order and approve, conditioned faithfully to perform his duties.

SECTION 2. This act shall take effect upon its passage.

AN ACT RELATIVE TO ACCOUNTS IN MANUFACTURING DEPARTMENTS OF HOUSES OF CORRECTION.

Be it enacted, etc., as follows:

SECTION 1. Section forty-eight of chapter twenty-one of the Revised Laws, as amended by section one of chapter thirty-five of the acts of the year nineteen hundred and eleven, is hereby further amended by striking out the words "and also" in the ninth and tenth lines thereof and by inserting after the words "probation officers" in the tenth line thereof the words: — and also superintendents of shops in houses of correction, — so as to read as follows: — *Section 48.* He or his deputy shall also visit, at least once a year without previous notice, all other county officers who receive money payable by them to the county treasurer, clerks of the supreme judicial court and the superior court in the county of Suffolk, the recorder and all assistant recorders of the court of land registration, registers of probate and insolvency, registers of deeds, trial justices and clerks of police, district and municipal courts, and justices of such courts having no clerk, and truant schools, probation officers, and also superintendents of shops in houses of correction, and shall make an examination of their accounts and vouchers and the items of receipts and expenditures. He shall ascertain the actual amount of money on hand in each of said departments or with any of said officers. He shall require, so far as possible, uniformity and correctness in the method of keeping said accounts, and may prescribe the classification of receipts and expenditures and a uniform system of receipts, certificates, vouchers and exhibits. Said officers and persons shall afford to the controller and his deputies such

assistance as he may require in making such examination, and shall make returns and exhibits under oath in such form and at such times as he shall prescribe. They shall also keep an accurate account of all money charged or received by them in their official capacities, and also of all expenditures made or liabilities incurred by them on account of the same, and shall annually, on or before the fifteenth day of January, make a return under oath to said controller of such receipts and expenditures for the preceding year.

SECTION 2. This act shall take effect upon its passage.

OPINIONS OF THE ATTORNEY-GENERAL.

Certain Fees of Registers of Deeds.

By reason of a difference in construction placed upon the provisions of section 25 of chapter 502 of the Acts of 1912 by registers of deeds, the Attorney-General's opinion was asked as to whether the minimum charge established by this section related only to instruments "drawn in accordance with the provisions of the act," or applied to all instruments, however drawn. The opinion is as follows:—

DEPARTMENT OF THE ATTORNEY-GENERAL,
BOSTON, May 1, 1913.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR:—Section 25 of chapter 502 of the Acts of 1912, entitled "An Act to shorten the forms of deeds, mortgages and other instruments relating to real property," provides as follows:—

Fees for recording instruments drawn in accordance with the provisions of this act shall be the same as those now required by law, but in no case shall the charge for recording a deed or conveyance be less than sixty-five cents, and in no case shall the charge for recording a mortgage be less than one dollar and twenty-five cents.

You inquire "whether the minimum charge established by this section relates only to instruments 'drawn in accordance with the provisions of this act' or applies to all instruments whether drawn in accordance with this act or otherwise."

The fees for recording instruments, now required by law, are established by R. L., c. 204, §29, as amended by St. 1908, c. 365, and are as follows:—

The fees of registers of deeds shall be as follows:—

For entering and recording a deed or other paper, certifying the same on the original, and indexing it, and for all other duties pertaining thereto, twenty-five cents. If it contains more than one page, at the rate of twenty cents for each

page after the first: *provided, however*, that if the deed or other paper contains the names of more than two parties thereto, other than the husband or wife of the grantor, or grantee, an additional fee of ten cents each shall be charged for indexing the names of additional grantors or grantees or other parties thereto. The fees shall be paid when the instrument is left for record.

For all copies, at the rate of twenty cents a page.

For entering in the margin a discharge of a mortgage, twenty-five cents.

For entering a discharge of an attachment or of a lien on buildings and land, if such discharge is certified by them, twenty-five cents.

For entering a partial release of an attachment, twenty-five cents

The language of section 25 warrants a conclusion that the Legislature intended to establish minimum recording charges for deeds and mortgages which should be uniform in application, and in my opinion the provision to which your inquiry is directed should be construed to apply to all deeds and mortgages, whether or not they conform to the provisions of St. 1912, c. 502.

Very truly yours,

JAMES M. SWIFT,
Attorney-General.

Dog Damages.

An interesting question, involving the interpretation of the dog damage laws, arose in connection with certain payments made by the treasurer of Worcester County. A tame deer had been killed by dogs, and it became necessary to interpret the words "domestic animals." The law and facts appear in the opinion.

OFFICE OF THE ATTORNEY-GENERAL,
BOSTON, MASS., Jan. 29, 1913.

FRANK L. DEAN, Esq., *Controller of County Accounts.*

DEAR SIR:— You have submitted for my consideration certain items which appear in the accounts of the treasurer of Worcester County as follows:—

Paid to C. D. Richardson for one deer killed by dog,	\$35 00
Paid C. H. Allen, selectman,	1 40
Paid E. K. Haskins, appraiser,	1 40
Paid J. E. Malloy,	1 40

and you state that these payments were made under the provisions of R. L., c. 102, § 151, as amended by St. 1903, c. 100, St. 1904, c. 283, and St. 1911, c. 392, which section so far as material, provides that "whoever suffers loss by the worrying, maiming or killing of his sheep, lambs, fowls or other domestic animals by dogs . . ." may be compensated therefor in the manner provided therein; and you inquire whether the animal in question may be treated as a domestic animal

within the meaning of the statute. It is further stated that the deer in question "was as tame as any domestic animal . . . and was used as an aid in the taming and training of other deer owned by Mr. Richardson," who apparently was engaged in the business of "taming and selling deer" for purposes not set forth, and was taxed as property by the assessors of North Brookfield, within whose limits it was kept.

It may be doubted whether the term "domestic animals" in the provision above cited was intended to include animals which are wild by nature even when held in captivity. See *Osborne v. Lenox*, 2 Allen, 207. There is, however, some authority for the proposition that a deer when reclaimed and domesticated ceases to be a *feræ naturæ*. 2 Kent's Com. 348, 349. See *Spring Co. v. Edgar*, 99 U. S. 645, 653. In this case the payments were undoubtedly made in good faith, and the question as to their validity may be tested in a suit in behalf of the county to recover therefor from the owner of the dog which caused the damage. See R. L., c. 102, § 155, as amended by St. 1904, c. 142, St. 1907, c. 241, and St. 1910, c. 392. Upon all the circumstances, therefore, I am of the opinion that you are not required to disallow the items referred to in your communication.

Very truly yours,

JAMES M. SWIFT,
Attorney-General.

Police Officers and Witness Fees.

In view of recent agitation relative to the right of police officers to witness fees, we have obtained an opinion relative to the proper interpretation of sections 42 and 44 of chapter 204 of the Revised Laws. The opinion of former Attorney-General Knowlton, rendered several years ago, has been considered in connection with these laws. The opinion now rendered makes it plain that unless the officer is one hired solely for night duty he is not entitled to witness fees for testifying in criminal cases in the lower courts.

OFFICE OF THE ATTORNEY-GENERAL, Jan. 1, 1914.

FRANK L. DEAN, Esq., *Controller of County Accounts.*

DEAR SIR: — Under date of December 19 you made inquiry of this department by the following letter:—

I enclose herewith a requisition sent for approval by me under the provisions of section 48 of chapter 160 of the Revised Laws, and a letter explaining the requisition.

The question involved is whether police officers, assigned to night duty, are entitled to a fee for testifying in court during the hours not covered by their assignment to duty. An opinion relative to this matter was given a former controller by Hosea M. Knowlton when he was Attorney-General, the opinion being dated Sept. 15, 1898.

As there is an apparent inclination on the part of a police organization to force the matter, and as the question arises occasionally, I wish to ask your opinion as to whether I ought to allow this requisition. It involves future payments and perhaps back payments in many courts.

The opinion of former Attorney-General Knowlton to which you refer (1 Op. Atty.-Gen. 597) applies only to special police officers, and has no particular application to the precise inquiry involved here. It does not appear from the inquiry or from the statement of the clerk of the court, which you enclosed, as to the particular employment these officers are engaged in; that is, whether they are paid by salary or *per diem*, or if paid by salary just what the employment covers. The ordinary police employment, however, is, as I understand it, on the basis stated in the language of the Supreme Judicial Court in the case of *Sackett v. Sanborn*, 205 Mass. 110, to which I direct your attention for fuller consideration. The court in that case stated:—

The object of the statute is to provide that officers who receive compensation for their services by salary or otherwise, and attend court in the discharge of duties which they are thus paid to perform, shall not receive further compensation by way of witness fees, but that any expenses necessarily and actually incurred or disbursed by them in the performance of such duties in attending court in criminal cases shall be reimbursed to them.

The provisions of section 44 of chapter 204 of the Revised Laws also appear significant in this connection, wherein it is provided that:—

A police officer on duty at night who attends the superior court as a witness for the commonwealth shall be paid the same fees as any other witness.

Except in cases where employment of the officer is limited specifically to night work I think your inquiry should be answered in the negative.

Very truly yours,

JAMES M. SWIFT,
Attorney-General.

TABULATIONS.

The material portions of the annual returns made to this office, compiled in tabular form, under the provisions of section 49 of chapter 21 of the Revised Laws, follow.

Respectfully submitted,

FRANK L. DEAN.

Controller.

TABLE No. 1. — *Returns of County Treasurers for the Year ending Dec. 31, 1913.*

The Commonwealth of Massachusetts.

OFFICE OF CONTROLLER OF COUNTY ACCOUNTS,
8 BEACON STREET, BOSTON, Jan. 20, 1915.

To the Honorable Senate and House of Representatives.

In compliance with the provisions of section 1 of chapter 211 of the Acts of 1905 I have the honor to present the twenty-eighth annual report of this office, covering the year ending Dec. 31, 1914.

IN GENERAL.

In addition to the other duties imposed by law upon it, this office now has the accounts of over 300 officials to care for. Some of these offices require little time, others consume weeks, for an examination. The law requires at least one examination a year, but many officials have to be visited several times yearly in order that their accounts may be kept in shape and payments promptly made. Many of these officers require the assistance of the office in the preparation of their annual returns. In many courts the business of the probation officers is increasing rapidly, and the multitude of small payments into which a single fine is often divided necessitates the expenditure of a large amount of time in the examination of these accounts. The office has begun the work of installing systems of accounts in the work shops of houses of correction. Instructions to those in charge of these accounts have been given and examinations made.

There are still a number of officials who are somewhat disinclined to comply with the laws relative to their accounts and paying over their receipts, and with these men we have to keep in constant touch. As a rule, however, the county officials with whom the office comes in contact respond to suggestions, and keep their accounts properly.

SHOPS OF HOUSES OF CORRECTION.

In compliance with chapter 216 of the Acts of 1914 this office has begun the installation of systems of accounts in the shops and agricultural departments of houses of correction. In the three institutions already supplied there is enough work done to warrant a complete system of book-keeping, to wit, at New Bedford and East Cambridge, where they manufacture, and at Plymouth, where the work is of an agricultural nature. For these institutions, working factory and agricultural systems have been devised and installed. A complete record is made of every transaction from the time the raw material enters the institution until the product is sold and paid for and the proceeds turned over to the county treasurer. It is possible to know at any hour how much raw material and finished product of any grade there is in any department. If, after trial, lack of help or other conditions interfere with the proper working of the system, necessary changes will be made.

SALARY OF FOURTH DEPUTY.

Chapter 546 of the Acts of 1914 created the office of fourth deputy in this department, and fixed the salary at \$1,200 per annum. At this salary it is not possible to secure a proper man for the position. The duties require an expert accountant of considerable ability; his address must be such as to command the respect of the officials with whom he has to deal; he must be forceful enough to obtain compliance by them with his directions. Increasing business of the department, the advisability of more frequent examinations and investigations make it necessary that a fourth deputy be appointed, and that he should be a proper man for the position. Such a man probably can be secured at the salary requested for the position.

I recommend, therefore, the passage of the following bill: —

AN ACT RELATIVE TO THE SALARY OF THE FOURTH DEPUTY CONTROLLER OF COUNTY ACCOUNTS.

Be it enacted, etc., as follows:

SECTION 1. Section forty-six of chapter twenty-one of the Revised Laws, as amended by section one of chapter four hundred and six of the acts of the year nineteen hundred and twelve and section one of chapter five hundred and forty-six of the acts of the year nineteen hundred and fourteen, is hereby further amended by striking out the word "twelve", in the tenth line, and inserting in place thereof the word: — fifteen, — so as to read as follows: — *Section 46.* The controller may appoint, with the approval of the governor and council, and subject to removal with their consent, four deputy controllers. If the controller is disabled from performing his official duties, or if the office of controller is vacant, the first deputy shall perform the duties thereof. The annual salary of the controller shall be twenty-five hundred dollars, of the first deputy, eighteen hundred dollars, of the second deputy, fifteen hundred dollars, of the third deputy, fifteen hundred dollars, and of the fourth deputy, fifteen hundred dollars, payable by the commonwealth. The controller shall be allowed the actual expenses of himself and his deputies incurred in travelling in the performance of official duties.

SECTION 2. This act shall take effect upon its passage.

OPINIONS OF THE ATTORNEY-GENERAL.

Naturalization Fees.

In the annual report of this office for the year 1912, the following appeared: —

Under the provisions of the United States naturalization act of June 29, 1906, clerks of courts were permitted to retain, for their own use, one-half of the fees. Upon examination of their accounts by the controller's office, the question arose whether under the provisions of chapter 165, section 37, of the Revised Laws, they were entitled to these fees or whether they should be turned over to the county.

The contention of the Commonwealth as set forth in the Attorney-General's opinion was that the clerks could not retain these fees, as their duties and powers are prescribed by the laws of this Commonwealth, and they perform the duties required by the United States naturalization act by virtue of their offices as clerks of courts of the Commonwealth, and not through appointment by the United States; and our law, chapter 253 of the Acts of 1908, requires that all naturalization fees be paid over to the treasurer of the county. Some of the

clerks complied with this construction of the law and paid these fees into the county treasury; the others retained them. In order that the question might be settled, an action was brought in Hampden County. The full bench of the Supreme Court has recently decided that inasmuch as these fees are received by the clerks under the law of the United States and that no act of the State Legislature can nullify this statute, the clerks are entitled to retain them.

In view of a recent decision of the Supreme Court of the United States, in the case of *Mulcrevy et al. v. City and County of San Francisco*, the question of whether the clerks of courts are entitled to these fees was again referred to the Attorney-General, and steps have been taken toward securing a decision of the question in the courts of the Commonwealth. The Attorney-General's opinion is as follows: —

DEPARTMENT OF THE ATTORNEY-GENERAL,
BOSTON, April 3, 1914.

FRANK L. DEAN, *Controller of County Accounts*.

DEAR SIR: — You have requested my opinion upon the following question: Have clerks of courts the right to retain for their own use and benefit one-half of the naturalization fees, under the naturalization laws of the United States and the laws of this Commonwealth?

Section 37 of chapter 165 of the Revised Laws provides that —

The annual salaries of clerks (meaning clerks of courts) shall be in full compensation for all services rendered by them in the civil or criminal courts, to the county commissioners, in making any returns required by law or in the performance of any other official duty except for such clerical assistance as may be allowed under the provisions of the following section.

It is clearly the meaning of this section that the salaries of clerks of courts are to be in full of all compensation for their official services. This section is supplemented by chapter 253 of the Acts of 1908, which makes elaborate provision for the keeping of an exact account of all fees received by clerks of courts or by any assistant or other person in their offices or employment, for any acts done or services rendered in connection with their said offices, and provides that they shall, on or before the tenth day of each month, pay over to the treasurer of the county, or to such other officer as may be entitled to receive them, all fees received during the preceding calendar month, and shall render an account thereof under oath, but subject to the proviso that —

The said clerks may retain that part of any moneys received by them under or by authority of the naturalization laws of the United States which they shall certify under oath to the treasurers of their respective counties have actually been expended by them for clerical assistance, travel and other expenses, while acting under said laws.

The United States naturalization act of June 29, 1906, provides —

That exclusive jurisdiction to naturalize aliens as citizens of the United States is hereby conferred upon the following specified courts: United States circuit and district courts now existing . . . ; also all courts of record in any State or territory now existing, or which may hereafter be created, having a seal, a clerk, and jurisdiction in actions at law or equity, or law and equity, in which the amount in controversy is unlimited.

It is further provided in section 13 of that act —

That the clerk of each and every court exercising jurisdiction in naturalization cases shall charge, collect, and account for the following fees in each proceeding: . . . The clerk of any court collecting such fees is hereby authorized to retain one-half of the fees collected by him in such naturalization proceeding; the remaining one-half of the naturalization fees in each case collected by such clerks, respectively, shall be accounted for in their quarterly accounts, which they are hereby required to render the Bureau of Immigration and Naturalization, and paid over to such Bureau within thirty days from the close of each quarter in each and every fiscal year. . . . In addition to the fees herein required, the petitioner shall, . . . deposit with and pay to the clerk of the court . . . *Provided*, That the clerks of courts exercising jurisdiction in naturalization proceedings shall be permitted to retain one-half of the fees in any fiscal year up to the sum of three thousand dollars.

The question then is, may clerks of courts of this Commonwealth having jurisdiction in naturalization cases, notwithstanding the provisions of the State statute that their salaries shall be in full compensation for their services and that they must account for and pay over all fees as above set forth, retain for their own emolument one-half the naturalization fees received by them, less the amount actually paid by them for clerical assistance, travel and other expenses while acting under the naturalization laws.

The apparent conflict of laws has been productive of some contrariety of opinion. Under date of May 24, 1907, Hon. Dana Malone, then Attorney-General, rendered an opinion on this question to the effect that —

Clerks of courts cannot retain for their own use one-half of said naturalization fees received by them under the naturalization laws of the United States, as their duties and powers are prescribed by the laws of this Commonwealth, and they perform the duties required by the United States naturalization act by virtue of their offices as clerks of courts of this Commonwealth and not through appointment by the United States, and our law especially requires that all naturalization fees be paid over to the treasurer of the county.

The same question arose in the case of *Hampden County v. Robert O. Morris*, 207 Mass. 167, and the Supreme Judicial Court decided that clerks of courts may retain one-half of the naturalization fees received by them, first paying from these fees for all additional clerical force required in performing the duties imposed by the naturalization act.

Under date of Jan. 5, 1914, the Supreme Court of the United States handed down a decision covering the precise point under consideration, in the case of *Mulcrevy et al. v. City and County of San Francisco*. The plaintiff in error was elected county clerk and became ex-officio clerk of the Superior Court, a court having jurisdiction of naturalization cases. The city charter under which he was elected provided that "the salaries provided in this charter shall be in full compensation for all services rendered." In its opinion the court said:—

On the merits the case presents no difficulty. It involves only the construction of the act of Congress already referred to above. We accept the State court's construction of the charter of the city and county of San Francisco. Indeed, its clearness leaves no room for construction. The salary it provides is declared to be "in full compensation for all services rendered." And it is provided that "every officer shall pay all moneys coming into his hands as such officer, no matter from what source derived or received, into the treasury of the city and county." The provisions are complete and comprehensive and express Mulcrevy's contract with the city, the performance of which his office imposed upon him; and, of course, the fees received by him in naturalization proceedings, because he was clerk of the Superior Court, were in compensation for official acts, not personal acts. . . .

If it be granted that he was made an agent of the national government, his relations to the city were not thereby changed. He was still its officer, receiving fees because he was, — not earning them otherwise or receiving them otherwise, but under compact with the city to pay them into the city treasury within twenty-four hours after their receipt. . . . He was given office accommodations, clerks to assist him, and yet contends that notwithstanding such equipment and assistance, notwithstanding his compact, he may retain part of the revenues of his office as fees for his personal own use. We cannot yield to the contention. Nor do we think the act of Congress compels it. The act does not purport to deal with the relations of a State officer with the State. To so construe it might raise serious questions of power, and such questions are always to be avoided. We do not have to go to such lengths. The act is entirely satisfied without putting the officers of a State in antagonism to the laws of the State, — the laws which give them their official status. It is easily construed and its purpose entirely accomplished by requiring an accounting of one-half of the fees to the United States, leaving the other half to whatever disposition may be provided by the State law. Counsel cite some State decisions which have construed the act of Congress as giving a special agency to the clerks of the State courts and as receiving their powers and rights from the national enactment. The reports of the Department of Commerce and Labor are quoted from, which, it is contended, exhibit by their statistics and recommendations the necessity of national control. State decisions expressing a contrary view are frankly cited. This contrariety of opinion we need not further exhibit by a review of the cases. We have expressed our construction of the act, and it is entirely consonant with the purpose of the act, and national control over naturalization.

The Supreme Judicial Court of this Commonwealth has always recognized the Supreme Court of the United States as the final arbiter as to the meaning of Federal statutes and as to questions arising under the Federal Constitution. (*Commonwealth v. People's Express Co.*, 201 Mass. 564.)

This principle is now universally accepted throughout the country, and in one form or another has received the sanction of our Supreme Judicial Court in numerous instances. ((1829) *Braynard v. Marshall*, 8 Pick. 194; (1851) *Sim's Case*, 7 Cush. 285; (1887) *Eliot v. McCormick*, 144 Mass. 10; (1901) *Chesley v. Nantasket Beach Steamboat Co.*, 179 Mass. 469; (1911) *Opinion of the Justices*, 207 Mass. 601; (1911) *Opinion of the Justices*, 208 Mass. 619; (1911) *Commonwealth v. Phelps*, 210 Mass. 78.)

A decision of the Supreme Court of the United States as to the meaning of a Federal statute is a declaration of the law of the land, binding upon judges of State courts and upon individual citizens, and stands as such until overruled or modified by the court that made it, or until the law is changed by the legislative arm of the Federal government.

I am therefore of the opinion that clerks of courts are not entitled to retain any portion of the naturalization fees that may be paid to them, except as specified in the statute, to pay for additional clerical assistance, travel and other expenses while acting under the naturalization act.

Very truly yours,

THOMAS J. BOYNTON,
Attorney-General.

As to whether an Assistant Clerk of a District, Police or Municipal Court may legally be appointed Clerk pro tempore of his Court and draw Clerk's Salary.

BOSTON, July 13, 1914.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR:— You have requested my opinion upon the following question: When an assistant clerk of a police, district or municipal court is appointed clerk *pro tempore*, is he entitled to the salary of the clerk while holding such position?

R. L., c. 160, §§ 11, 12 and 70, provide:—

SECTION 11. The clerk of a police, district or municipal court may, subject to the approval of the justice, from time to time appoint one or more assistant clerks, who shall be removable at his pleasure or at the pleasure of the court, for whose official acts the clerk shall be responsible and who shall be paid by him unless they receive salaries which may be allowed and fixed by law.

SECTION 12. In case of the absence, death or removal of a clerk of a police, district or municipal court, the court may appoint a clerk *pro tempore*, who shall act until the clerk resumes his duties or until the vacancy is filled. . . .

SECTION 70. Clerks *pro tempore* of police, district and municipal courts shall receive from the county as compensation for each day's service an amount equal to the rate by the day of the salary of the clerk; but compensation so paid to a clerk *pro tempore* for service, in excess of thirty days in any one calendar year, shall be deducted by the county treasurer from the salary of the clerk.

St. 1906, c. 256, provides: —

SECTION 1. In case of the absence, death or removal of an assistant clerk of a police, municipal or district court, other than the municipal court of the city of Boston, whose office is established by law, the clerk, subject to the approval of the justice, may appoint an assistant clerk *pro tempore*, who shall act until the assistant clerk resumes his duties or until the vacancy is filled, and who shall receive from the county as compensation for each day's service an amount equal to the rate by day of the salary of the assistant clerk; but compensation so paid to an assistant clerk *pro tempore* for service, in excess of twenty days in any one calendar year, shall be deducted by the county treasurer from the salary of the assistant clerk.

There is nothing in the law which prohibits the appointment of an assistant clerk of a court to the office of clerk *pro tempore*, but it is my opinion that the two positions are incompatible and cannot be held by any one person at one and the same time. When an assistant clerk accepts an appointment as clerk *pro tempore*, he vacates the position of assistant clerk and is entitled to receive from the county as compensation for each day's service an amount equal to the rate by the day of the salary of the clerk. Upon the expiration of his term as clerk *pro tempore*, he is, of course, again eligible to appointment as assistant clerk.

Very truly yours,

THOMAS J. BOYNTON,
Attorney-General.

Police Officers and Witness Fees.

BOSTON, April 9, 1914.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR: — You have requested my opinion upon what I understand to be the following question: Are police officers receiving a salary entitled to witness fees for attending a district court where there is more than one city or town in the district and where the officers live within the jurisdiction of the court and not in the city or town where the court sits? And you also ask: What is the proper interpretation of the word "residence" in the second line of section 44 of chapter 204 of the Revised Laws, which I understand to be the same question although in different form.

This matter was considered by the Supreme Court in the case of *Sackett v. Sanborn*, 205 Mass. 110, which was a test case carried to the Supreme Court for the purpose of settling the question you ask. That case, of course, relates to police officers receiving a regular salary. The plaintiff in the case was the chief of police in the town of Norwood. The court say: —

R. L., c. 204, § 42, provides that "No officer in attendance on any court, sheriff, deputy sheriff, jailer, constable, city marshal or other police officer who receives a salary or an allowance by the day or hour from the Commonwealth or from a county, city or town shall, except as otherwise hereinafter provided, be paid any fee or extra compensation for official services performed by him in any criminal case; . . . but his expenses, necessarily and actually incurred, and actually disbursed by him in a criminal case tried in the Superior Court, be paid by the county in which the trial is held, and in a criminal case tried in a police, district or municipal court or before a trial justice, by the city or town in which the crime was committed." Any officer violating the provisions of this section is liable to a fine of \$100. The plaintiff was receiving a salary as chief of police and as a police officer of the town of Norwood, and was attending the district court in the performance of his official duties as such chief of police and police officer in criminal cases when he claims to have been entitled to witness fees and travel. The case comes therefore plainly within the statutory provision quoted above unless the words "except as otherwise hereinafter provided" point to a qualification which constitutes an exception in the plaintiff's favor. The plaintiff contends that they do, and that the provision in § 44 of the same chapter that "Any officer named in section forty-two who attends as a witness at a place other than his residence, shall, instead of his expenses, be allowed by the day the witness fee in the court or before the trial justice where he testifies," is the provision referred to, and that under it he is entitled to the witness fees and travel which he seeks to recover in this action. We do not think that the construction thus contended for is the correct one. The object of the statute is to provide that officers who receive compensation for their services by salary or otherwise, and attend court in the discharge of duties which they are thus paid to perform, shall not receive further compensation by way of witness fees, but that any expenses necessarily and actually incurred or disbursed by them in the performance of such duties in attending court in criminal cases shall be reimbursed to them. If they attend court, but not in the performance of the duties for which they are paid, at a place other than their residence, then, according to the provision quoted above from § 44, instead of their expenses they are to be allowed witness fees. The proviso in § 42 was inserted simply as a matter of precaution, for the purpose of making it plainer, if possible, that the provisions of that section were not intended to apply to the cases thus included and provided for in § 44. It was not intended to enlarge and does not enlarge the scope and effect of the provisions contained in § 42. As thus construed §§ 42 and 44 are entirely consistent with each other and the legislative intent is given full effect. This construction renders it unnecessary to consider the question which has been raised whether attendance at the court at Dedham was as matter of law attendance by the plaintiff at a place other than his residence.

This opinion states the law clearly and concisely, and I am unable to give you any further assistance upon this particular subject.

Very truly yours,

THOMAS J. BOYNTON,
Attorney-General.

Salaries of Registers of Deeds.

BOSTON, July 25, 1914.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR:— You ask the opinion of the Attorney-General as to the proper method of determining the salary of the register of the Franklin Registry of Deeds, in view of the fact that the receipts of said registry in 1913 exceeded \$3,000.

Chapter 452 of the Acts of 1904 established the salaries of registers and assistant registers throughout the Commonwealth. Certain classifications were made: Class A, where the yearly receipts for the five years preceding the year 1903 amounted to \$3,000 or more, and where the register was given an initial salary of \$1,600 plus a sum equal to 15 per cent. of said receipts; Class B, where the receipts were between \$1,500 and \$3,000, with an initial salary of \$900 plus 40 per cent.; Class C, where the receipts were less than \$1,500 per year, with a salary equal to the receipts and not less than \$600. Several registries were mentioned by name and the salaries stated.

Section 2 of that chapter reads as follows:—

The salaries of registers of deeds and assistant registers of deeds hereinbefore specified shall be readjusted in January, nineteen hundred and six, and every five years thereafter, upon the basis of the average yearly receipts of the respective registries for the five preceding years, in accordance with the classification set forth in section one.

This was amended by chapter 682, Acts of 1913, to read:—

SECTION 1. Chapter four hundred and fifty-two of the acts of the year nineteen hundred and four is hereby amended by striking out section two and inserting in place thereof the following:— *Section 2.* The salaries of registers of deeds and assistant registers of deeds hereinbefore specified shall be readjusted in January, nineteen hundred and fourteen, and in the month of January of each year thereafter, upon the basis of the receipts of the respective registries for the year preceding, every such readjustment to be in accordance with the classification set forth in section one.

SECTION 2. This act shall take effect upon its passage.

The plain purport of the recent enactment was to readjust the salaries each year, the readjustment to be in accordance with the classification set forth in the prior act, and by classification is meant that all registries whose receipts are more than \$3,000 in the year shall be in Class A; those whose receipts are between \$1,500 and \$3,000 shall be in Class B, etc. It was not intended that a registry named as a Class B registry in the 1904 act should remain so if it had attained the rank of a Class A registry.

As the Greenfield registry is now in Class A, the salary of the register must be determined by the Class A rate, namely, \$1,600 plus 15 per cent. of the receipts.

Very truly yours,

THOMAS J. BOYNTON,
Attorney-General.

County Commissioners' Expenses incurred Outside the Commonwealth.

Boston, Aug. 4, 1914.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR: — You have requested my opinion upon the following question: May expenses of county commissioners incurred outside the limits of the Commonwealth be allowed by the Controller of County Accounts?

The statute governing this matter (section 1 of chapter 162 of the Acts of 1911) provides as follows: —

An itemized statement of the actual and proper cost to the commissioners for transportation and other necessary expenses incurred in the performance of their official duties shall on the first day of each month be certified by them to the controller of county accounts who shall audit and if correct certify the same to the county treasurer who shall reimburse the commissioners for such expenses from the county treasury.

The question does not appear to be as to the place where the expense is incurred, but whether the item charged represents the proper cost or expense to the commissioners of transportation or other necessary expenses incurred in the performance of their official duties. The test is not whether the duty is to be discharged or performed within this Commonwealth or outside of it, but whether the expense charged was incurred in the performance of official duty and whether it is reasonable and proper in amount.

You inclose correspondence containing an inquiry whether the expense of county commissioners in attending the Congress of the American Prison Association should be allowed. Admitting that the commissioners by attending the congress would gain much useful and important information, it is still my opinion that attending the Congress of the American Prison Association could not be regarded as official business, and therefore that expenses incurred in attending that or other similar gatherings cannot properly be allowed except in cases where a special appropriation has been made. The rule which you state that you have hitherto followed seems to me to be correct.

Very truly yours,

THOMAS J. BOYNTON,
Attorney-General.

REPORTS TO THE ATTORNEY-GENERAL.

In compliance with the provisions of section 47 of chapter 21 of the Revised Laws, the following has been reported to the Attorney-General:—

Nantucket County Treasurer.—An examination of the accounts of the treasurer showed that he had no sufficient and legal vouchers in certain instances, and that he had paid several bills which were not proper and legal charges against the county, as follows:—

- Voucher 68. Paid 75 cents to J. F. Barrett for distributing manuals.
- Voucher 69. Paid \$4 for cigars for county commissioners.
Paid \$18 per year to F. B. Murphey, messenger of Probate Court.
- Voucher 155. Overpaid, \$5, autopsy.
- Voucher 77. Three officers' vouchers for \$15 lacking.
- Voucher 116. No proper voucher. Reported previously to Attorney-General.

Although the treasurer was directed to furnish proper vouchers and to repay the county the amount of the improper payments, he declined to do so, and the facts were reported to the Attorney-General.

TABULATIONS.

Material portions of the annual returns made to this office, compiled in tabular form, under the provisions of section 49 of chapter 21 of the Revised Laws, follow.

Respectfully submitted,

FRANK L. DEAN,
Controller.

OFFICE OF CONTROLLER OF COUNTY ACCOUNTS,
8 BEACON STREET, BOSTON, Jan. 19, 1916.

To the Honorable Senate and House of Representatives.

In compliance with the provisions of the Acts of 1905, chapter 211, section 1, I have the honor to present the twenty-ninth annual report of this office, covering the year ending Dec. 31, 1915.

IN GENERAL.

The addition to the office force of a fourth deputy, provided for by chapter 546 of the Acts of 1914, has made possible more thorough examinations in all offices, and a second examination of the county treasuries in the six larger counties and also a number of the larger courts.

As usual, instruction of officials in keeping their accounts and monthly or quarterly visits to many offices has taken a great deal of time in addition to what the regular yearly examinations consume.

The difficulties met with by these officers is not due to the forms with which they must comply, but rather to their habit of delaying their entries. This is sure to result in mistakes. Their accounts should be kept up to the day.

Delays in paying over receipts to the office entitled to the same are now almost completely eliminated by following up the delinquent very persistently.

The accounts of probation officers are being better kept each year, although the multitude of payments made in probation cases in the larger courts where a small fine is payable in small installments renders keeping the accounts troublesome.

LAW LIBRARIES.

Under the law relative to law libraries (Revised Laws, chapter 38, section 4) money paid over to the libraries "shall be applied to maintain and enlarge such libraries." It has been the practice in several counties for those in charge of these libraries to secure as large an allowance as possible, deposit the same and permit the fund to accumulate. One association had a balance at one time of \$4,500. The controller's office for several years tried to secure legislation relative to the manner of financing these libraries, but has not succeeded as yet.

We are informed that the officials of a law library having an accumulated fund recently asked the county commissioners for an allowance and were properly refused.

NATURALIZATION FEES.

The decision of the Supreme Court of the Commonwealth in *County of Berkshire v. Cande* has perhaps settled for good the question relative to the ownership of the one-half of naturalization fees collected by clerks of courts under the provisions of the United States naturalization act of June 29, 1906.

This act provided that "the clerk . . . is hereby authorized to retain one-half of the fees collected by him," and also, "the clerk shall pay all additional clerical force that may be required in performing the duties imposed by this act upon the clerks of courts from fees received by such clerks in naturalization proceedings." The act went into effect Sept. 29, 1906, and since that date all naturalization in the Commonwealth has been effected under its provisions.

On April 11, 1907, the controller asked the Attorney-General for an opinion relative to the disposition of these fees. In answer, Attorney-General Malone, on May 24, 1907, rendered an opinion to the effect that all naturalization fees should be paid over to the county.

The following year the Legislature passed an act (chapter 253 of the Acts of 1908) permitting clerks of courts to retain so much of their naturalization fees as they certified ex-

pendent "for clerical assistance, travel and other expenses, while acting under said laws." This act was an amendment to Revised Laws, chapter 165, section 31. Section 37 of the same chapter provided that the annual salaries of clerks of courts should be in full compensation for all services. Thereupon a test case was brought by direction of the Attorney-General, County of Hampden *v.* Robert O. Morris, clerk of courts for Hampden County. The decision of the Supreme Court of the Commonwealth in this case (207 Mass. 167) was to the effect that the clerks could retain the half of the fees allowed by the naturalization act.

On Jan. 5, 1914, the decision of the Supreme Court of the United States in the case of Mulcrevy, *et al.* *v.* City and County of San Francisco, under conditions very similar to those in this Commonwealth, held the clerk was not entitled to the naturalization fees.

On April 3, 1914, Attorney-General Boynton rendered an opinion to the effect that the clerks were not entitled to the fees.

Another test case was then brought by direction of the Attorney-General, County of Berkshire *v.* Frank H. Cande, clerk of courts for Berkshire County. On Oct. 14, 1915, the Supreme Court of the Commonwealth decided that the clerks were not entitled to the fees.

OPINIONS OF THE ATTORNEY-GENERAL.

As to the Duties and Liabilities of the County of Essex and the Plum Island Street Railway Company in Connection with Repairs and Operation of Bridges.

DEPARTMENT OF THE ATTORNEY-GENERAL,
BOSTON, Feb. 27, 1915.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR:— You have requested my opinion as to whether, under the provisions of chapter 404 of the Acts of 1905 and the contract between the Plum Island Street Railway Company and the Plum Island Turnpike and Bridge Corporation, referred to in section 2 of said act, the street railway company is required at its own expense to keep the draw in one of the bridges in said turnpike in such condition that it can be operated.

Chapter 404 of the Acts of 1905 required the county commissioners of Essex County to lay out Plum Island turnpike and bridge as a public highway. It provides, in part, as follows:—

SECTION 2. Upon the laying out of said road and bridges as aforesaid, the county commissioners shall succeed to all the rights, powers, privileges, duties and obligations of said turnpike and bridge corporation set forth in the contract between it and the Plum Island Street Railway Company, . . . The amount of any expense incurred by said street railway company in rebuilding said bridges or any of them in accordance with said contract shall be deemed in all proceedings hereafter as a part of the value of its property for street railway purposes; . . .

SECTION 6. After said taking the cost of lighting and operating the drawbridge in said highway shall be borne and paid by said county and by such municipalities as the county commissioners of said county may, after due notice and a hearing, determine to derive special benefit from the said drawbridge: *provided, however*, that not less than forty per cent of the said cost shall be borne and paid by the said county.

SECTION 7. After said road and bridges have been laid out as a public highway, as herein provided, if, by reason of the dissolution of the Citizens' Electric Street Railway Company, or for any other reason, said company or its successors shall cease to be liable to or shall fail to keep said road and bridges in repair, then the county of Essex, by its county commissioners, shall keep the same in repair so that they may be reasonably safe and convenient for travelers, with their horses and vehicles, at all seasons. . . .

The pertinent provisions of the contract referred to are these:—

The Railway Company further agrees to make, from time to time, at its own expense, such repairs on the turnpike, including the bridges therein, as may be needed to keep the same in good condition, reasonably safe for the travel thereon, within the limits of the present traveled width. Whenever the bridges or any of them shall need to be rebuilt in order to maintain them in condition safe for the travel thereon, the work shall be done by and at the expense of the Railway Company. . . . The Turnpike Company agrees at all times to tend and operate the drawbridge in the turnpike, furnishing at its own cost and expense, and without charge to the Railway Company, all the superintendence and labor needed therefor.

The consideration for this agreement by the railway company was an irrevocable license to it to construct, maintain and operate its tracks and equipment in the turnpike without payment of toll for its cars or passengers. It is to be noticed that in the covenant as to operation of the draw, although items of superintendence and labor are mentioned, nothing is said as to materials which would generally be required in repairing the draw.

I am of the opinion that under the contract it was the duty of the railway company to keep, at its own expense, the draw in the drawbridge in such condition that it could be operated. The railway company expressly covenants to make such repairs on the bridge as may be needed to keep the same in good condition, reasonably safe for the travel thereon, within the limits of the present traveled width.

I assume that the draw in the bridge exists because of the fact that it is over navigable waters, and the maintenance of the bridge without a draw would be illegal. Consequently, the bridge is not in condition for travel unless the draw is in condition to be operated.

There remains to be considered the question as to whether this duty of keeping the draw in repair, so that it can be operated, is, by virtue of the statute, transferred from the railway company to any other body.

Section 6 is the only portion of the act which could be argued to lay ground for such contention. This section, however, merely provides that the cost of lighting and operating the drawbridge shall be borne and paid by the county, etc. Section 7 of the act shows that it is the intention that the railway company should continue to be liable to keep the road and bridges in repair. Consequently, I am of the opinion that keeping the draw in the bridge in such condition that it can be properly operated is a matter of repair and not an expense of operation, and accordingly that this expense should be borne by the railway company.

As your second question is propounded only in the event that the first should be answered in the negative, no reply thereto is necessary.

Very truly yours,

HENRY C. ATTWILL,
Attorney-General.

Authority of the Controller to prescribe Certain Forms.

BOSTON, June 23, 1915.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR:— By letter of June 4 you transmit certain correspondence and request my opinion as to whether you are justified in refusing to audit a certificate of expenditures by a county commissioner which is not in the uniform form prescribed by you as Controller of County Accounts.

St. 1893, c. 270, § 1, provided:—

The controller of county accounts is authorized to prescribe a uniform system of receipts, certificates, vouchers and exhibits to be used in the adjustment of all county expenses.

This section is incorporated in section 48 of chapter 21 of the Revised Laws, and the fact that the commissioners who compiled the Revised Laws made no note or comment indicates that there was no intention of changing the broad powers given to your office in this matter.

R. L., c. 20, § 14, as amended by St. 1911, c. 162, provides:—

An itemized statement of the actual and proper cost to the commissioners for transportation and other necessary expenses incurred in the performance of their official duties shall on the first day of each month be certified by them

to the controller of county accounts who shall audit and if correct certify the same to the county treasurer who shall reimburse the commissioners for such expenses from the county treasury.

This certificate audited by yourself furnishes the voucher which the county treasurer must have to warrant payment by him.

In my opinion you are authorized under the statutes quoted above to prescribe a uniform form of certificate for such a case as this, and are justified in refusing to audit a certificate which is not in conformity with the form you have prescribed.

Although you have previously given one of the prescribed forms to the county commissioner in question, I should advise that you forward him by registered mail a letter transmitting another copy of the prescribed form, at the same time calling his attention to the fact that one had previously been furnished him, and notifying the commissioners that the form prescribed must be adhered to.

Very truly yours,

HENRY C. ATTWILL,
Attorney-General.

*Interpretation of Chapter 707 of the Acts of 1914, relative to
Farm Bureaus.*

BOSTON, Oct. 28, 1915.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR:— You have requested my opinion as to whether, under the provisions of St. 1914, c. 707, in determining the amount which may be contributed by a county to corporations organized to promote agriculture and to improve country life, under the provision of section 7 that "the sum so contributed shall not be less than one thousand dollars, nor more than the amount raised annually by said corporation from all other sources," county commissioners may properly take into account some sum for rent of offices which have been donated to the use of the corporation.

Your question is specifically raised by the certificate of the finance board of the Worcester County Farm Bureau, showing, under the head of "receipts," an item: "Chamber of Commerce (office rent), contribution, \$250."

Section 7 of the act further provides:—

The sum so contributed shall be paid to the corporation upon the certificate of the finance board showing that an equal amount has been received in the treasury of the corporation from all other sources.

It is extremely difficult to see how it can be said in a case where rent or any like thing is given to the corporation that any amount "has

been received in the treasury of the corporation." A "treasury" ordinarily implies a place in which is kept money, or funds in the nature of money, and the whole language of this section, and especially the use of the word "amount" in the places where it occurs, implies the idea of sums of money.

There is a very substantial difference between a contribution of rent, services or specific property from a contribution of money. The directors of this bureau, for example, might perhaps well have hesitated at engaging an office as expensive as the one contributed, and paying in cash from contributions made to it such a sum, while, of course, with entire propriety being ready and willing to accept any office for which they were required to pay nothing.

If the receipts of such a corporation may be built up in this way, it would seem quite possible for the officers of the corporation to decide that the services of a large number of persons which had been given were worth large sums of money, and by that method obtain from the treasury of the county further substantial sums of money.

In my opinion the intent of the Legislature was merely that the county commissioners might appropriate a sum equal to amounts of money actually paid into the treasury of a corporation.

Very truly yours,

HENRY C. ATTWILL,
Attorney-General.

As to the Termination of a County Pension.

BOSTON, Dec. 13, 1915.

FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR: — I beg to acknowledge your favor of Dec. 1, 1915, in which you ask my opinion on the following: —

At a recent examination of the accounts of the treasurer of Essex County it appeared that Mr. Charles H. Stevens, formerly a county employee and some time ago pensioned by the county, died on the eighth day of May, 1915. The county commissioners, believing they had the authority to do so, approved a payment of \$35.41, that being the amount due him monthly, and covering the entire month of May, and the treasurer paid this to Mr. Stevens' estate. Had Mr. Stevens lived until the 1st of June this sum would have been due him.

Will you kindly advise me whether I am warranted in approving this payment.

It is my opinion that your question must be answered in the negative. It is apparent that the Legislature in providing pensions for retired county employees intended that these pensions should be a reward for faithful service, and as long as the employee lived he should be a recipient of the county's bounty.

However, that on the death of the employee his pension should cease is evident from St. 1911, c. 634, § 1, par. (d), entitled "An Act to authorize the counties of the Commonwealth to establish retirement systems for their employees." This section provides that the word "pensions" means the payments for life derived from money contributed by the county. Obviously, it is apparent that the treasurer would not be authorized in making a payment for a period subsequent to Mr. Stevens' death, and it might be argued that he is not warranted in making a payment for the time between the last monthly payment and the pensioner's death. However, by analogy with the law of the Commonwealth relative to annuities, in my judgment the treasurer of Essex County could properly pay the estate of the deceased for the time between the date of the last monthly payment and that of the pensioner's decease.

Very truly yours,

HENRY C. ATTWILL,
Attorney-General.

REPORT TO THE ATTORNEY-GENERAL.

In compliance with the provisions of the Revised Laws, chapter 21, section 47, the following report has been made to the Attorney-General:—

Treasurer of Nantucket County.—An examination of the treasurer's accounts show that he had paid bills which were not proper charges against the county, as follows:—

Vouchers Nos. 124 and 155 of 1914, and No. 38 of 1915, \$4.50 each, to F. B. Murphey, "messenger of the probate court."

Voucher No. 10 of 1915, \$5 "for premium on official bond" of R. Mack, register of probate.

Although the treasurer was requested to repay the county these amounts he declined to do so and the facts were reported to the Attorney-General.

TABULATIONS.

Material portions of the annual returns made to this office, compiled in tabular form, under the provisions of the Revised Laws, chapter 21, section 49, follow.

Respectfully submitted,

FRANK L. DEAN,
Controller.

CONTROLLER OF COUNTY ACCOUNTS,
STATE HOUSE, BOSTON, Jan. 17, 1917.

To the Honorable Senate and House of Representatives.

In compliance with section 1 of chapter 211 of the Acts of 1905, I have the honor to present the thirtieth annual report of this department, covering the year ending Dec. 31, 1916.

IN GENERAL.

During the year 1916 the department has made many more examinations than in any preceding year. All of the 310 offices under its control have been examined at least once as the law requires; the larger county treasuries, where the combined expenditures for the year amount to about six-sevenths of the total yearly expenditures of all the counties, have been twice examined; 14 of the larger courts have been twice examined; a considerable number of examinations have been made at the request of other State departments; frequent visits and partial examinations have been made in cases for the purpose of assisting and instructing officers in their accounts, and obliging certain officers to make the payments required of them by law.

In order that we may have correct annual returns we have been obliged to make an examination of the books of 16 officers and prepare their returns for them.

LAW LIBRARIES.

The department has endeavored for three successive years to convince legislative committees that the laws providing for payments to law library and bar associations, for the support of

law libraries, should be revised. A very influential opposition has convinced the committees that no change is necessary.

These libraries are now receiving their support from the counties in several different ways. Section 4 of chapter 38 of the Revised Laws provides that law library associations shall receive the clerks of courts fees up to the amount of \$2,000, and such further sums as the county commissioners shall consider necessary and proper; several associations, including bar associations, are provided for by special legislation; other associations by an annual appropriation by the Legislature; and others are taken care of by payments charged to the miscellaneous item in the county tax.

One result is that some of these libraries have been using only a part of their funds received from the county and accumulating the balance. One library some time ago had on hand a balance of about \$4,500, although the law provides that money paid libraries shall be applied to their maintenance and enlargement. They should of course receive enough for their support, but the law, as it is now, furnishes some of them an amount which is hoarded up. This increases the county tax unreasonably.

The absurdity of the situation is realized when the report comes that one association or its treasurer has recently been inquiring into the advisability of investing his accumulation of funds in county bonds.

COUNTY TREASURERS.

The treasurers of all counties, except Nantucket, have conformed to the opinion of the Attorney-General relative to their duties and obligations, printed in our annual report for 1912. The opinion concludes as follows: "If, upon the face of the record presented by the voucher or certificate, it clearly appears that there is no legal warrant for the expenditures, no order of the county commissioners or no approval by them or by any public officer of charges so incurred is sufficient to warrant the payment."

The treasurer of Nantucket County continues the payment of bills, invalid against the county, because the county commissioners approve them.

CLERKS OF COURTS AND NATURALIZATION FEES.

Chapter 177 of the General Acts of 1916 provides that "said clerks may retain that part of any moneys received by them under or by authority of the naturalization laws of the United States, in so far as such retention is authorized by federal law, but from the moneys so retained they shall pay all additional clerical force that may be required in performing the duties imposed by the said naturalization laws."

The responsibility imposed by the Federal law, and the nature of the services required of the clerks, make this disposition of the fees entirely reasonable and proper.

REPORT TO THE ATTORNEY-GENERAL.

In compliance with section 47 of chapter 21 of the Revised Laws, the following report was made to the Attorney-General.

Treasurer of Nantucket County. — An examination of the treasurer's accounts shows that he has paid bills which were not proper charges against the county, as follows: —

Vouchers No. 80 and others, \$18 paid F. B. Murphey, "messenger of the probate court."

Voucher No. 27 of 1915, \$5 paid "for premium on official bond" of R. Mack, register of probate.

The treasurer declined to repay the county these amounts, and the facts were reported to the Attorney-General and county commissioners.

TABULATIONS.

Material portions of the annual returns made to this department, compiled in tabular form, under the provisions of section 49 of chapter 21 of the Revised Laws, follow.

Respectfully submitted,

FRANK L. DEAN,

Controller.

STATISTICAL TABLES.

CONTROLLER OF COUNTY ACCOUNTS,
STATE HOUSE, BOSTON, Jan. 16, 1918.

To the Honorable Senate and House of Representatives.

In compliance with section 1 of chapter 211 of the Acts of 1905, I have the honor to present the thirty-first annual report of this department, covering the year ending Dec. 31, 1917.

Regular examinations of all offices, additional examinations of a number of the larger offices and many partial examinations have been made during the year. Necessary changes in books and forms for established offices have been made. New offices created by the Legislature have been supplied with proper books. Whenever an officer has asked for instructions they have been given, and in many instances where the need of instruction has appeared necessary or advisable the officer has been instructed.

The accounts of probation officers, the easiest of all accounts to keep provided the officer gives them proper attention, are in better shape. Several of these officers, however, do not devote a sufficient amount of time to this important part of their duties, and these men have been the subject of conferences with the Commission on Probation.

There have been many references of matters to the Attorney-General's office, involving the interpretation of laws. The general law relative to the construction by counties of tuberculosis hospitals, chapter 286 of the Acts of 1916, has been the subject of numerous conferences, with the result that new legislation providing for their maintenance will be asked for.

During the last session of the Legislature the Controller, at the request of the committee on counties, has attended the

meetings of the committee for the purpose of furnishing such information as he may have in matters being considered.

No recommendations or suggestions for legislative action are made this year for the reason that the laws relative to the accounts of county officers are, in general, sufficient. A compliance with existing laws will be more beneficial than multiplying legislation.

The tables which follow have been somewhat condensed in cases where it has been thought advisable.

In compliance with section 47 of chapter 21 of the Revised Laws, a report was made to the Attorney-General following the examination of the accounts of the treasurer of Nantucket County. The following bills, not being proper charges against the county, were paid: \$5, for the bond of Robert Mack, register of probate; \$18, to F. B. Murphy, messenger of the probate court.

TABULATIONS.

Material portions of the annual returns made to this department, compiled in tabular form, under the provisions of section 49 of chapter 21 of the Revised Laws, follow.

Respectfully submitted,

FRANK L. DEAN,
Controller.

CONTROLLER OF COUNTY ACCOUNTS,
STATE HOUSE, BOSTON, Jan. 15, 1919.

To the Honorable Senate and House of Representatives.

In compliance with section 1 of chapter 211 of the Acts of 1905 I have the honor to present the thirty-second annual report of this department, covering the year ending Dec. 31, 1918.

IN GENERAL.

The duties of the department have been considerably increased by legislation of last year providing for authority over the accounts of the county tuberculosis hospitals. The war has interfered with the construction of several of the larger institutions, but once completed the supervision of their accounts will require a great deal of time and attention.

Although the law provides for one examination a year of each office under the controller's charge, in the case of several of the larger offices, as in 1916 and 1917, more frequent examinations have been made. This is advisable, because if there are corrections to be made it is much easier for all concerned that they should be made as soon as possible. There have been the usual installations of books of account, partial examinations, consultations with and instructions to county officers, and closing of accounts.

COUNTY TUBERCULOSIS HOSPITALS.

As stated in last year's annual report of this department many conferences, with reference to county tuberculosis hospitals, were held with the Attorney-General's department. The result was that considerable new legislation was made. The general act, chapter 286 of the General Acts of 1916,

amended by chapters 103 and 251 of the General Acts of 1917, was amended by chapter 80 of the General Acts of 1918, and the disputed question of maintenance of the hospitals established under general laws settled. The maintenance of those operating under special acts — Barnstable and Hampshire hospitals — was otherwise provided for. The accounts of all these hospitals were placed under the supervision of this department by chapter 163 of the General Acts of 1918. The installation of a system of accounting has been effected in those now in operation.

PROBATION OFFICERS.

Probation officers' accounts, to which this department has devoted much time and attention, are in very much better shape. A system of monthly trial balances has been installed, and although the result has not yet been ascertained in all the offices, still the system will undoubtedly bring about greater correctness and more up-to-date accounts.

OPINIONS OF THE ATTORNEY-GENERAL.

Although the department has frequently consulted the Attorney-General's office with reference to the proper interpretation of questions of law, but three written opinions have been sought. These have to do with chapter 240 of the General Acts of 1918, — An Act establishing minimum salaries for officers in county penal institutions, — and chapter 260 of the same year, — An Act to authorize a temporary increase in the compensation of certain employees of the counties. A multitude of questions arose in connection with these acts. The opinions, of great interest throughout the counties, follow: —

BOSTON, July 10, 1918.

MR. FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR: — You have requested my opinion as to what persons come within the scope of section 2 of chapter 240 of the General Acts of 1918, which establishes certain minimum salaries for "officers who have been in the prison service of the several counties of the commonwealth for" specified periods of years.

By R. L., c. 224, § 16, the following provision is made for the appointment of subordinates in jails and houses of correction:—

The jailer, master or keeper shall appoint subordinate assistants, employees and officers, and shall be responsible for them.

Section 18 of that chapter provides:—

The county commissioners shall establish fixed salaries for all officers, assistants and employees of jails and houses of correction.

These quotations seem plainly to indicate that all employees in the prison service, subordinate to the master or keeper, are not to be regarded as officers. They are described as “subordinate assistants, employees and officers.” The statute under consideration establishing minimum salaries expressly applies only to officers.

My predecessor, the Honorable Thomas J. Boynton had occasion to consider the question as to what persons were officers or instructors in the prison service within the meaning of St. 1908, c. 601, as amended by St. 1911, c. 673, providing for the retirement of such officers and instructors and the granting of pensions to them. In an opinion dated Sept. 24, 1914, directed to the chairman of the Board of Retirement, he ruled that a carpenter, a mechanic and a mason, whose regular duties did not appear to require them to have charge of any prisoners, were not officers or instructors within the meaning of this statute. He defined officers of a prison to mean “those persons who are employed to, and who as a regular part of their duties do, have charge either of all or a definite number of persons committed to the prison, jail or reformatory by legal process.” This seems to me to be an appropriate definition of the term, and, in my opinion, it should be employed in determining who are officers in the prison service within the meaning of the statute under consideration. It necessarily becomes a question of fact in each individual case, as to whether the particular employee, as a regular part of his duties, has charge of some or all of the prisoners. This question of fact must be decided, in the first instance at least, by the county treasurer, whose duty it is to pay the salaries established by this act. In my opinion, in performing the duties intrusted to you by law, you ought not to question a determination of this character once made by him unless you are satisfied that it is plainly wrong.

If an employee is appointed and carried on the pay roll as an officer, that fact may, *prima facie*, entitle him to the benefits of this statute though it is not conclusive. Calling a clerk an officer, of course, cannot make him such. Nor does the fact that an employee may occasionally, as an incidental part of his work, have some supervision over a few of the prisoners who are assigned to work in his department make him an officer. It must be a regular and substantial part of his duty to have charge and control of prisoners in order to bring him

within the definition of prison officers to which I have referred. Thus, the engineers, assistant engineers and stewards or cooks cannot, in my opinion, be regarded as officers, merely because prisoners are from time to time assigned to work in their departments under their direction. Again, persons appointed as, and in the main performing the duties of, clerks are not officers unless, in addition, they perform substantial duties of the character indicated in this definition of prison officers.

The question whether matrons come within the terms of this statute is a matter of some difficulty. From the facts furnished me, apparently they perform, with reference to the female prisoners, much the same duties that are performed with regard to the male prisoners by some of the persons who are plainly prison officers. There appears, however, to be no provision in the statute expressly authorizing the appointment of matrons. They seem to be appointed under the general authority to appoint subordinate assistants and employees. So far as the matter has been called to my attention the compensation paid them is substantially less than that paid to any of the male employees prior to the enactment of this statute. In no county where the matter has been called to my attention are they paid more than \$600 a year. In the county of Barnstable the matron receives but \$100 a year. I cannot believe that by the enactment of this statute, and without referring definitely to these positions, the General Court intended to increase these salaries to a minimum of \$1,000, increasing to a minimum of \$1,400 in case of more than five years' service. I feel that I must advise you that these matrons do not come within the provisions of chapter 240.

Yours very truly,

HENRY C. ATTWILL,
Attorney-General.

BOSTON, July 26, 1918.

MR. FRANK L. DEAN, *Controller of County Accounts.*

DEAR SIR:— I beg to acknowledge your request for my opinion with regard to certain questions which have arisen as to the general scope and effect of chapter 260 of the General Acts of 1918, entitled "An Act to authorize a temporary increase in the compensation of certain employees of the counties of the commonwealth." Section 1 of that act is as follows:—

From and after the first day of July in the current year, all persons who are regularly in the employ of the several counties of the commonwealth whose annual compensation in full for all services rendered does not exceed twenty-five hundred dollars and whose salaries have not been increased by act of the general court passed during the current year, shall, until further action of the general court relative to the standardization of the salaries of judicial and county officers and employees, receive additional temporary compensation equal to ten per cent of the salaries received by them on the first day of July in the year nineteen hundred and seventeen.

This applies to "all persons who are regularly in the employ of the several counties of the commonwealth" whose annual compensation does not exceed the sum specified. The chief difficulty in applying this statute is to determine the meaning of this language. It is not apt language to designate public officers. Furthermore, in a strict sense of the term few, if any, persons can be said to be "regularly in the employ of the several counties" in their corporate capacities. They are either public officers elected by the people of the counties, or public employees appointed by the county commissioners or other so-called county officials. It becomes necessary to examine with some detail the history of this act and of various other statutes that were enacted in connection with it.

In 1916 the Executive Council at the request of the General Court undertook an investigation and standardization of "salaries and compensations paid by the commonwealth and by the several counties, so far as they are established by the commonwealth." The report of the special committee of the Council upon this matter was submitted to the General Court this year as House Document No. 1175. Part I of this document was devoted to departmental and institutional officials and employees, and dealt strictly with officials and employees of the Commonwealth. Part II was devoted to judicial and county officials and employees. It considered chiefly the matter of compensation of judicial officers and various other public officers usually referred to as county officials. It paid little or no attention to minor employees.

This report was referred to the committee on public service. That committee, on March 21 (Senate, No. 316), submitted a report recommending the enactment of a statute based upon Part I of the report of the Executive Council. It also suggested that there was need of further investigation as to the salaries of judicial and county officers, and recommended that "the subject of salaries and compensation paid to judicial and county officials and employees and to all other officers and employees of the commonwealth other than those included in" the bill based upon Part I of the committee's report be referred to a special recess committee. The bill, reported by the committee, was subsequently enacted with some changes as chapter 228 of the General Acts of 1918. The matter of the order for a recess committee was recommended to the committee on public service.

On May 21 (Senate, No. 395) the committee on public service submitted a further report, stating in substance that after further investigation they had become convinced that thorough analysis and standardization of county and State offices and positions, not covered by the bill already reported, were essential. They say: "Furthermore, we have not gone sufficiently deep into the matter of compensation of county employees other than those elective and appointed officers specified in House, No. 1175. Investigation should be made of salaries of janitors, draw-tenders and other minor officials and employees."

The committee recommended five separate bills dealing with the salaries of specific officials. They repeated their recommendation for a recess committee to consider the salaries "paid to judicial and county officials and employees, and to all other officers and employees of the commonwealth or the counties thereof, elected or appointed, other than those included in" the bill recommended in their first report. They also reported "a temporary bill which makes an attempt in the meantime to offset the increase in the cost of living."

The five separate bills referred to subsequently became chapters 261, 263, 272, 284 and 287 of the General Acts of 1918, dealing with the salaries, respectively, of county commissioners, county treasurers, district attorneys, judges and registers of probate courts and clerks of court. The order for an investigation recommended by the committee was subsequently amended so as to impose the duty of investigation upon the Supervisor of Administration, and was enacted as chapter 86 of the Resolves of 1918. This resolve applies to "the judicial and all other officials and employees, appointive or elective, of the commonwealth, except in the department of legislation, and the several counties thereof, other than those included in senate document number three hundred and seventy of the present year." Senate Document No. 370 is the proposed bill which was subsequently enacted as Gen. St. 1918, c. 228, above referred to.

The temporary bill recommended by the committee was the original bill which formed the basis of the statute now under consideration. As first recommended, however, it applied to "all persons who are regularly in the employ of the commonwealth or of the counties thereof, as hereinafter specified." The persons specified were judges, registers and assistant registers of probate, assistant recorders of the Land Court, registers and assistant registers of deeds, sheriffs, medical examiners and justices, clerks and assistant clerks of district courts. The salaries of these officials, except those of the judges, registers and assistant registers of probate, are paid from the treasuries of the several counties. This bill was subsequently redrafted by the ways and means committee of the Senate so as to apply to "all persons who are regularly in the employ of the commonwealth or of the counties thereof" whose compensation did not exceed \$2,500, without restriction. Still later, various changes in form were made, and the bill was again redrafted so as to apply to "all persons who are regularly in the employ of the several counties of the commonwealth" whose compensation did not exceed the specified sum, any reference to persons in the employ of the Commonwealth being eliminated. At the same time a second section was added establishing the salary of the justice of the district court of Dukes County, and a third section, dealing with the compensation of assistant recorders of the Land Court. In this form the bill was finally enacted. This temporary bill, the resolve for an investigation by the Supervisor of Administration, and four of the five

special bills were all approved on May 31. Chapter 287 was approved on June 1.

From the history and language of the act under consideration and from the provisions of the other related legislation, particularly Resolve 86, I am led to the conclusion that it was the intention of the General Court, by the use in this statute of the words "all persons who are regularly in the employ of the several counties of the commonwealth," to designate as entitled to the proposed 10 per cent. increase all persons in the public service whose salaries are paid from the treasuries of the several counties. The specific reference in the bill first drawn to justices, clerks and assistant clerks of district courts, who are not strictly county officers but who are paid by the counties, and the addition at its final stage of section 2, establishing the salary of the justice of the district court of Dukes County, who is thus treated as an employee of a county within the scope of the statute as defined by its title, point to this conclusion. These suggestions, when considered together with the provision that the increase granted is to continue "until further action of the general court relative to the standardization of the salaries of judicial and county officers and employees," which it is contemplated will result from the investigation authorized by Resolve 86, and the statement in the report of the committee on public service that this temporary increase is granted "to offset the increased cost of living" pending the investigation, all seem to indicate that there was no intention to confine the benefits of this temporary bill to persons who are strictly county officers or employees. The language used is unfortunate and gives rise to disturbing doubts, but, on the whole, I am of opinion that the statute must be construed as granting increase of salary to all persons otherwise within its terms who are by authority of law paid their salaries from the treasuries of the several counties of the Commonwealth.

This statute is limited by its terms to persons otherwise within it "whose salaries have not been increased by act of the general court passed during the current year." Gen. St. 1918, c. 211, established the salaries of clerks of police, district and municipal courts at three-quarters of the salary received by the justice of their respective courts. This statute was made effective as of June 1, 1917. Gen. St. 1917, c. 340, established the salaries of these officials on the same basis, except that it provided that that act was to become effective upon acceptance by the respective county commissioners. I am informed that this 1917 statute was accepted by most, if not all, of the county commissioners at varying times before the enactment of Gen. St. 1918, c. 211. It follows that to the extent that the 1917 statute had been thus accepted by the county commissioners the 1918 statute did not grant an increase in salary, but merely provided back pay from June 1, 1917, to the date of such acceptance. In such cases it is not, in my judgment, to be regarded as an increase of salaries by the General Court during

1918 within the meaning of chapter 260 under discussion. If in any case the 1917 statute was not accepted by the county commissioners before the enactment of Gen. St. 1918, c. 211, in such cases the latter statute did actually increase existing salaries, and thus in such cases no increase can be allowed under chapter 260.

In my opinion, in no case are clerks of district courts entitled to three-quarters of the 10 per cent. increase granted by this statute to the judges of the district courts. They are entitled to an increase of 10 per cent. of their salaries as established on July 1, 1917, but to no further increase.

As the 10 per cent. increase granted by this statute is based upon "the salaries received by them on the first day of July in the year nineteen hundred and seventeen," it, in my opinion, applies only to persons who were in the service of the county, as herein defined on that date, and who have been regularly in its service since that time. It does not apply to persons appointed or employed after July 1, 1917.

The increase provided for by this statute, being based upon the salary received on July 1, 1917, is to be computed upon the amount which the officer or employee was entitled to receive at that time, and in no other manner. The increase is to be added to the salary which the officer or employee would have received but for the enactment of this statute. If his salary was readjusted in January, 1918, on the basis of the business of his office in 1917, as in the case of registers and assistant registers of deeds, the increase must be added, by the terms of the statute, to the readjusted salary of 1918. If in the case of salaries not fixed by act of the Legislature county commissioners, or other persons in authority, have granted increases subsequent to July 1, 1917, and prior to the enactment of this statute, its language seems to require the addition of the increase granted to such increased salaries. In other words, the increase is to be added to the salary actually established on July 1, 1918. It is to be noted, however, that if this last-mentioned result works a discrimination in any case, it is well within the power of the county commissioners or other constituted authority to withdraw increases granted during the year, in order that certain employees may not have the benefit of two increases within a year if such a result is not, in their opinion, justified.

Very truly yours,

HENRY C. ATTWILL,
Attorney-General.

BOSTON, Oct. 7, 1918.

FRANK L. DEAN, Esq., *Controller of County Accounts.*

DEAR SIR: — You have requested my opinion as to whether the justices, clerks and assistant clerks of the district courts, whose salaries were affected by Gen. St. 1918, c. 173, are entitled to the temporary

increase in salary authorized by Gen. St. 1918, c. 260. By its terms the latter statute applies only to persons "whose salaries have not been increased by act of the general court passed during the current year," and the sole question is as to whether Gen. St. 1918, c. 173, is to be regarded as having granted such an increase in salary within this provision.

By Gen. St. 1917, c. 302, the territorial jurisdiction of various district and police courts was enlarged by annexing thereto one or more towns. This statute took effect on Oct. 1, 1917, but contained no provision relating to the salaries of the justices or clerks of these courts. The various police, district and municipal courts of the Commonwealth had been classified, and the salaries of their justices and clerks established on the basis of population, by St. 1904, c. 453, and this statute, with its various amendments, is still in force.

St. 1910, c. 501, provided that these salaries shall be readjusted on the first day of July in the year in which a national or State census is taken, so that thereafter the salaries shall be based upon the population of the district as shown by the latest enumeration.

As the statute of 1917, increasing the territorial jurisdiction of the courts in question, contained no provision increasing the salaries of the justices and clerks to correspond to the added population, it is plain that without further legislation they were not entitled to an increase in salary based on such added population until a readjustment should take place, in accordance with the statute of 1910, on the first day of July of the year in which the next national or State census is taken.

This being the situation, the General Court this year enacted Gen. St. 1918, c. 173, § 1 of which is as follows: —

The salaries of the justices, clerks and assistant clerks of the district, police and municipal courts whose judicial districts were enlarged by the provisions of chapter three hundred and two of the General Acts of nineteen hundred and seventeen, and the classes into which said courts are distributed under the provisions of chapter four hundred and fifty-three of the acts of nineteen hundred and four and the amendments thereof, shall be readjusted, by the officer paying said salaries, so as to correspond with the classes and salaries prescribed by said chapter four hundred and fifty-three and the amendments thereof. The readjustment shall be made as of October first, nineteen hundred and seventeen, and all increases of salary hereunder shall take effect as of that date.

In view of the statutes relating to salaries in the courts in question at the date of the enactment of this statute, it is my opinion that it can be regarded as having no other effect than granting an increase in salary to the justices, clerks and assistant clerks specified and providing for the payment of the increase from Oct. 1, 1917. In my judgment this is an increase in salary granted by act of the General Court, passed during the year 1918, and, accordingly, these justices and clerks

do not come within the provisions of chapter 260 of the acts of this year.

You also ask my opinion as to whether court stenographers, who receive an annual salary of \$2,500, are entitled to the benefits of Gen. St. 1918, c. 260.

This question arises from the fact that these stenographers are required by R. L., c. 165, § 85, at the request of the presiding justice, to provide him with a transcript of such portion of their notes as he may require, payment for such transcript to be made by the county. The result is that in cases where a stenographer is requested to perform any such additional work by the presiding justice he receives compensation from the county in excess of \$2,500. The habits of the various presiding justices with regard to making such requests vary greatly, and it is impossible to determine in advance whether any particular stenographer during any year will receive compensation for such work, and, if so, to what extent.

Gen. St. 1918, c. 260, applies only to persons "whose annual compensation in full for all services rendered does not exceed twenty-five hundred dollars." The temporary increase in salary granted is "equal to ten per cent. of the salaries received by them on the first day of July in the year nineteen hundred and seventeen." This appears to make the basis of the increase the rate of regular compensation received on that date. It does not permit the consideration of occasional extra compensation paid for additional work performed out of regular hours.

Regular salaries paid these stenographers appear to be compensation for the services rendered by them in taking notes and performing other incidental services during the sessions of the court. The furnishing of transcripts of evidence to presiding justices of necessity requires work out of regular court hours and frequently beyond regular business hours. Though it is not entirely free from doubt, it seems to me, on the whole, that it must be regarded as work performed in addition to the regular duties of the office. Because of the uncertainty of its extent, it is paid for in the manner above indicated. I am inclined to the opinion, therefore, that amounts received on account of such additional work are not to be considered in determining the annual compensation of such stenographers for the purpose of the application of Gen. St. 1918, c. 260.

Accordingly, in my judgment, stenographers, who merely receive additional compensation for furnishing transcripts of their notes to presiding justices, are not debarred thereby from the temporary increase authorized by this statute.

Yours very truly,

HENRY C. ATTWILL,
Attorney-General.

TABULATIONS.

Material portions of the annual returns made to this department, compiled in tabular form, under the provisions of Revised Laws, chapter 21, section 49, follow.

Respectfully submitted,

FRANK L. DEAN,
Controller.

The Commonwealth of Massachusetts

DEPARTMENT OF CORPORATIONS AND TAXATION,
STATE HOUSE, BOSTON, Jan. 31, 1920.

To the Honorable Senate and House of Representatives.

The consolidation of the various departments of the Commonwealth transferred the duties of the Controller of County Accounts to the Division of Accounts of the Department of Corporations and Taxation.

This report was prepared under the immediate direction of Mr. Theodore N. Waddell, Director of Accounts, and contains a statement of the work done by the department, together with tabular statements of returns made by the several county officials of their receipts and expenditures for the financial year ending Dec. 31, 1919.

Respectfully submitted,

WILLIAM D. T. TREFRY,
Commissioner of Corporations and Taxation.

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES.

MR. WILLIAM D. T. TREFRY, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR:— I submit herewith a report on the work of the Division of Accounts, which was formerly under the direction of the Controller of County Accounts.

The books and accounts of the several county officials, which, under the law, have to be audited, have been examined, and statements concerning such examinations have been filed in the Division of Accounts.

The enactment of chapters 260 of the General Acts of 1918, and 112 and 276 of the General Acts of 1919 added materially to the work of the examiners.

Many conferences were held with the county officials relative to the salaries of employees affected by this legislation. Opinions were obtained covering some of the vital questions, copies of which are included in this report.

Chapter 112, which was approved on April 18, 1919, increased the pay of grand and traverse jurors. In some cases, this statute was construed as taking effect thirty days after its passage, notwithstanding that the constitution provides that an act shall not take effect until ninety days after its passage, unless the act shall be deemed to be an emergency measure. With the exception of Essex and Hampshire counties, all excess payments made under the new law were returned to the treasury. In Essex County these payments aggregated \$1,110.88, and in Hampshire County they amounted to \$375.16. At the close of the year 1919 these amounts had not been repaid.

The opinion of the Attorney-General, which is found on page 7, is to the effect that chapter 112 was subject to "The Referendum," and, consequently, was not effective until ninety days after its approval by the Governor, which was on April 18, 1919.

The use of the cash books devised for keeping the accounts of tuberculosis hospitals has proved generally satisfactory, and it is now possible to obtain complete data relative to the charges for care of patients and the cost of maintenance of these institutions.

At the present time, tuberculosis hospitals have been established under special acts in Barnstable and Hampshire counties, and under chapter 286 of the General Acts of 1916 these hospitals were established in the counties of Bristol, Norfolk, and Plymouth. The construction of the tuberculosis hospital in Essex County was held up by war conditions and it is not yet in operation.

Berkshire, Franklin, and Hampden counties have arranged for the care of their patients by Hampshire County under contracts which appear to be mutually beneficial to these counties.

The returns, as shown in the tabulations appended, are complete, excepting those of a probation officer in the town of Adams and of a trial justice in Nahant. These returns should be made not later than January 15, but on that date there were a number of delinquents.

The amount of work necessary for the preparation of the report makes it imperative that the schedules should be filed promptly, so that the report may be completed before the first day of February.

Opinions of the Attorney-General that are of great interest to the county officials follow: —

DEPARTMENT OF THE ATTORNEY-GENERAL,
BOSTON, July 28, 1919.

MR. FRANK L. DEAN, *Controller of County Accounts*.

DEAR SIR: — You have requested my opinion as to when chapter 112 of the General Acts of 1919, increasing and establishing the rate of compensation and mileage to be paid traverse and grand jurors, becomes effective. This act applies to all jurors in attendance upon any court within the Commonwealth.

The initiative and referendum amendment to the Constitution, in the first article under the heading "The Referendum," contains the following provision: —

I. *When Statutes shall take Effect.*

No law passed by the General Court shall take effect earlier than ninety days after it has become a law, excepting laws declared to be emergency laws and laws which may not be made the subject of a referendum petition, as herein provided.

The statute under consideration is not declared to be an emergency measure, and therefore it cannot take effect earlier than ninety days after it has become a law, unless it is a statute which may not be the subject of a referendum petition.

Article III of this division of the amendment under consideration is, in part, as follows: —

III. *Referendum Petitions.*

SECTION 1. *Contents.* — A referendum petition may ask for a referendum to the people upon any law enacted by the General Court which is not herein expressly excluded.

SECTION 2. *Excluded Matters.* — No law that relates to religion, religious practices or religious institutions; or to the appointment, qualification, tenure, removal or compensation of judges; or to the powers, creation or abolition of courts, or the operation of which is restricted to a particular town, city or other political division or to particular districts or localities of the Commonwealth, or that appropriates money for the current or ordinary expenses of the Commonwealth or for any of its departments, boards, commissions or institutions shall be the subject of a referendum petition.

The only item of excluded matters within which it has been suggested this statute may come is that of laws "the operation of which is restricted to a particular town, city or other political subdivision or to particular districts or localities of the Commonwealth." The suggestion is made that as the General Court might have dealt with the matter of jurors' compensation by statutes applicable only in one or more counties and not throughout the Commonwealth, and thus by a series of statutes covering the several counties of the Commonwealth in succession, this statute must be regarded as the equivalent of such a series of statutes, and as coming within the matters excluded from the referendum by the clause under consideration.

By precisely the same reasoning, any statute dealing with a subject of legislation which it is within the power of the General Court to make applicable to less than the entire Commonwealth could be similarly regarded as the equivalent of several statutes applicable to districts or divisions of the Commonwealth. The real question, therefore, is whether the referendum is by the terms of the amendment limited to matters which are of such a character that they cannot constitutionally be restricted in their application to "a particular

town, city or other political subdivision or to particular districts or localities of the Commonwealth." The same language as that above quoted is used in defining the matters excluded from the operation of the initiative (The Initiative, Art. II, § 2). So this suggestion also raises the question whether only those matters may be made the subject of the popular initiative as are required by the Constitution to be made applicable throughout the Commonwealth.

The history of the adoption of the initiative and referendum amendment is too recent to require stating. It was the result of a popular desire of considerable strength to provide the people with a more effective means of controlling the exercise of legislative power. Its opening article, defining the scope of the amendment, is as follows:—

I. *Definition.*

Legislative power shall continue to be vested in the General Court; but the people reserve to themselves the popular initiative, which is the power of a specified number of voters to submit constitutional amendments and laws to the people for approval or rejection; and the popular referendum, which is the power of a specified number of voters to submit laws, enacted by the General Court, to the people for their ratification or rejection.

Both expressly and by implication it is indicated throughout the amendment that both the initiative and the referendum shall be applicable to all exercises of legislative power except those dealing with matters excluded from their operation. The various exclusions are based upon different grounds of policy. That under consideration seems plainly to be founded on a desire not to burden the people of the whole Commonwealth with the duty of passing upon matters of only local or limited application in which they are not, as a whole, interested; but unless a matter is excluded on other grounds, it is the obvious purpose of the amendment to enable the people directly to consider, enact, approve or reject all matters of legislation which affect the people of the Commonwealth as a whole. Thus, there are many matters which are ordinarily dealt with by general legislation applicable throughout the Commonwealth which conceivably might in a proper case be restricted to particular localities or districts. It cannot be said that all such matters are excluded from the initiative and referendum merely because the General Court might have dealt with them locally. It must be said that if it chooses to treat a matter as one of general application, and to deal with it as such by a general statute applicable to all the people of the Commonwealth who come within its scope, it is not excluded from the initiative and referendum. Such a statute is in fact made applicable to the entire Commonwealth, and therefore cannot be said to be a law "the operation of which is restricted to a particular town, city or other political subdivision or to particular districts or localities of the Commonwealth." To construe the amendment otherwise would be to overlook its real character of a far-reaching

reservation of power to the people, and thereby to thwart by a narrow construction the will of the people as expressed therein.

Accordingly, in my opinion, the statute to which you refer does not deal with a matter expressly excluded from the operation of the referendum by the provisions of the Constitution, and therefore, in my judgment, it cannot take effect earlier than ninety days after it became a law by approval by the Governor on April 18, 1919.

Very truly yours,

HENRY C. ATTWILL,
Attorney-General.

DEPARTMENT OF THE ATTORNEY-GENERAL,
BOSTON, Oct. 9, 1919.

MR. JOSEPH W. WHARTON, *Controller of County Accounts.*

DEAR SIR: — You have requested my opinion as to the construction of statutes relating to the salary of the first assistant clerk of courts for the county of Plymouth.

Gen. St. 1918, c. 287, § 1, establishes the salaries of clerks and assistant clerks, and in reference to the latter, with certain exceptions, provides that the salary of the first assistant clerk shall be 55 per cent of the salary of the clerk of the county, but not less in counties of the first six classes than \$2,500. After the words "to wit" comes a list of counties and the salaries for the first assistant clerks. In the case of the county of Plymouth the salary is calculated at \$1,925, although Plymouth County is enumerated in the earlier part of the section in the first six classes, namely, in Class F. This makes an inconsistency in the language of the act.

Chapter 57 of the Resolves of 1919 directs Plymouth County to pay to the first assistant clerk of courts for 1918 the sum of \$575 "by way of rectifying an error in chapter two hundred and eighty-seven of the General Acts of said year, whereby the incumbent of the said office was deprived of an intended increase in salary." Of course, this resolve does not amend the general statute of the preceding year, but is merely temporary and self-executing. From the language of the resolve it is not certain whether the Legislature of 1919 felt that the assistant clerk in question was deprived of an increase in salary because it considered that the Legislature of 1918 had failed to provide the increase by statute or whether the clerk had been deprived of his increase, legally given, by a wrong interpretation of the 1918 act by the county of Plymouth.

Although the 1919 resolve may be construed to indicate a legislative doubt as to a construction giving the assistant clerk \$2,500, this doubt is not so clearly expressed as to be at all controlling; and, believing that the resolve does not in any way change the proper construction of Gen. St. 1918, c. 287, it is my opinion that the present incumbent, assuming he is the same man who held the office at the time of the

passage of the 1918 act, is entitled to a salary of \$2,500, because I consider that the list of counties and salaries of the assistant clerks following the words "to wit" is merely an incorrect mathematical determination of the salaries as established by the paragraph preceding the words "to wit" and, as a matter of law, does not form an integral part of the statute.

It is, therefore, my further opinion that, under Gen. St. 1919, c. 356, § 7, the salary of the present incumbent shall not be reduced below \$2,500.

Very truly yours,

HENRY A. WYMAN,
Attorney-General.

DEPARTMENT OF THE ATTORNEY-GENERAL,
BOSTON, NOV. 22, 1919.

MR. JOSEPH W. WHARTON, *Controller of County Accounts.*

DEAR SIR:— You have requested my opinion upon three questions which have arisen relative to the provisions of chapter 361 of the General Acts of 1919.

Your first question is based upon the following set of facts: the register of deeds for the southern district of Middlesex County received a salary as register of deeds and compensation as assistant recorder of the land court of \$7,054.92. Chapter 361 of the General Acts of 1919 provides for a readjustment of the above salary beginning June 1, 1919. Under this readjustment the register would receive \$7,344.72. Section 1 provides, in part, that "the salary of a register of deeds or assistant recorder of the land court shall in no event exceed the maximum of six thousand five hundred dollars." Section 6 provides that "the provisions of this act shall not be construed to reduce the salary of any present incumbent."

Your first question is what salary the register shall receive beginning June 1, 1919.

The act is to be construed as a whole, and while it seeks to adjust and readjust the salaries of registers of deeds and assistant recorders of the land court, it is clear that by the insertion of the proviso of section 6 it was intended by the Legislature that the salaries of the present incumbents should in no way be disturbed. This proviso section controls, and the salary of the register in question cannot be reduced, but is to remain at \$7,054.92.

Your second question is whether or not, in the event of the register receiving the larger sum, namely, \$7,054.92, the assistant register should receive 55 per cent of that sum, as provided in section 2, or 55 per cent of \$6,500.

Section 2 reads as follows:—

The salaries of assistant registers of deeds shall in each instance be equal to fifty-five per cent of the salary of the register of deeds in their respective districts, as adjusted or readjusted under the provisions of this act.

It is clear that the Legislature intended that the assistant register should receive 55 per cent of the amount adjusted or readjusted under the act, namely, \$6,500 in this case, and not the arbitrary amount received by the present incumbent under the provisions of section 6, or \$7,054.92. Also note that section 6 applies to assistant registers.

Your third question is as follows: Section 1 provides that the register of deeds and assistant recorder shall receive one salary for both offices. Section 4 provides that "the annual salaries of the registers of deeds for the counties of Dukes County and Nantucket shall be nine hundred dollars each, and the annual salary of the register of deeds for the southern district of Berkshire county shall be one thousand dollars." On these facts you ask whether these three registers shall continue to receive an annual salary as assistant recorders of the land court, under section 3 of chapter 260 of the General Acts of 1918, in addition to the amount stated above.

Reading the bald language of section 4, one might be led to the conclusion that the three registers in question were to receive, in addition to the sums set forth as salaries, the compensation as assistant recorders of the land court. Upon investigation, however, I find the following situation: under the provisions of section 1, in districts where the population is under 75,000, the basic salary provided was \$2,200. In the progress of chapter 361 through the Legislature the statute had reached the Senate when it was discovered that \$2,200 for the three registers in question would be an unwarranted increase over the salary they had received in the past and were receiving at that time. For example, the register of deeds for the southern district of Berkshire was receiving a salary as register of deeds plus his compensation as assistant recorder of the land court of \$706.05; the register of deeds of Dukes County was receiving as salary and compensation, \$600, and the register of deeds of Nantucket was receiving as salary and compensation, \$874. This situation being brought to light, the bill was amended by the addition of section 4, taking these three districts out of the general provisions of section 1 and giving these three particular officers the flat arbitrary sum set forth, which amounted to a substantial increase over what they had been and were receiving from both sources. Accordingly, it is my opinion that it was the intention of the Legislature that the sum of \$900 in the cases of the counties of Dukes County and Nantucket and of \$1,000 in the case of the southern district of Berkshire County should cover the salary as register of deeds and compensation as assistant recorder of the land court. Therefore, my answer to your third inquiry is in the negative.

Yours very truly,

HENRY A. WYMAN,
Attorney-General.

DEPARTMENT OF THE ATTORNEY-GENERAL,
BOSTON, Jan. 8, 1920.

Mr. THEODORE N. WADDELL, *Director of Accounts.*

DEAR SIR: — I am in receipt of your letter of Jan. 2, 1920, asking for an opinion concerning chapter 361 of the General Acts of 1919. This act is one to establish the salaries of the registers of deeds, the assistant recorders of the land court and the assistant registers of deeds.

In determining the salaries to be paid, a basic salary is provided by section 1 which further provides a certain additional amount based on the income of the registry "from all sources for the five years next preceding the date when the salary, adjusted or readjusted under the provisions of this act takes effect."

As the date when the salaries were adjusted first takes effect is June 1, 1919, the question arises whether the words "the five years next preceding" means to include the period between June 1, 1914, and June 1, 1919, or Jan. 1, 1914, and Jan. 1, 1919.

It is my opinion that calendar years are meant and the figures must be based upon the income between Jan. 1, 1914, and Jan. 1, 1919. While the other construction has some points in its favor the statute does not clearly indicate that the period is from June 1, 1914, to June 1, 1919. By reason of that not having been made plain, the statutory definition of the word year must apply, which is "a calendar year unless otherwise expressed" (R. L., c. 8, § 5).

Under Gen. St. 1919, c. 241, salaries of county treasurers are established, and here the receipts during the five calendar years preceding the date of the adjustment are taken into account in fixing the salaries. It is also to be observed that, in the act under consideration, in the future all salaries will be based upon the income during the five calendar years preceding the year of adjustment. There is nothing in the statute to indicate that the Legislature had any different plan in mind when using the words "for the five years next preceding."

Very truly yours,

HENRY A. WYMAN,
Attorney-General.

During the year 1919 certain changes were made in the officials in charge of this work. On August 1 Mr. Frank L. Dean, Controller of County Accounts, resigned, after having directed this work for a number of years. During his term of service many progressive ideas were put into actual operation.

His successor was Mr. Joseph W. Wharton, who directed the work until it was transferred to the Department of Corporations and Taxation.

In conclusion I wish to express my appreciation of the efficient manner in which Mr. William H. Wing, Mr. Irving Taylor, Mr. James C. Emerson and Mr. Herbert E. Fairfield, examiners of county accounts, have performed their respective duties, and I desire to thank them for their hearty co-operation and assistance.

Respectfully submitted,

THEODORE N. WADDELL,

Director of Accounts.

The Commonwealth of Massachusetts

DEPARTMENT OF CORPORATIONS AND TAXATION,
STATE HOUSE, BOSTON, Jan. 28, 1921.

To the Honorable Senate and House of Representatives.

In accordance with the provisions of section 46, chapter 35 of the General Laws, there is herewith transmitted a report of my predecessor in office, Mr. William D. T. Trefry. This report was prepared under the immediate direction of Mr. Theodore M. Waddell, Director of Accounts. It shows tabular statements of returns made by the several county officials of their receipts and expenditures for the financial year ending Dec. 31, 1920.

Respectfully submitted,

HENRY F. LONG,
Commissioner of Corporations and Taxation.

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES.

MR. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR:— I submit herewith a report on the Statistics of County Finances for the year ending Dec. 31, 1920.

The statute requires that an examination be made, at least once a year, of the several county offices responsible for the collection or disbursement of public funds. There are 312 such offices, and the books and accounts in these offices have been examined and statements concerning the examinations have been filed with the Division of Accounts. The amount of money which must be checked has increased over the previous year by nearly 15 per cent.

The business of the inferior courts, the examination of whose accounts comprises the major part of our work, is seemingly lighter, but the amount of money handled has increased approximately 18 per cent, this increase showing in the latter half of the year.

There are 102 probation officers in the State, who handled money amounting to more than \$1,120,000 during the year, an increase of approximately 23 per cent over the previous year.

The amount of business done by the registers of deeds fell off somewhat from the previous year, but there was an increase in the amount of fees received by them amounting to approximately \$150,000, or an increase of 55 per cent. This increase in revenue was the result of the passage of chapter 495 of the Acts of 1920, which fixed the amount of fees to be received by registers of deeds.

During the year many conferences were held with county officials relative to methods of accounting, and I am pleased to state that they have shown their willingness to co-operate with the Division in every way which will make for greater efficiency in the handling of their accounts.

The work of the year has been done with a reduced force of examiners, and as a result we have been unable to carry out certain general schemes of accounting which we believe will be of assistance in reporting the financial transactions of the several counties.

I wish to express my appreciation of the faithful manner in which the examiners of county accounts have performed their respective duties, both in the making of the audits and in the preparation of this report.

Respectfully submitted,

THEODORE N. WADDELL,

Director of Accounts.

STATE HOUSE, BOSTON, Jan. 28, 1921.

The Commonwealth of Massachusetts

DEPARTMENT OF CORPORATIONS AND TAXATION,
STATE HOUSE, BOSTON, Jan. 27, 1922.

To the Honorable Senate and House of Representatives.

I transmit herewith a report on county finances for the year ending Dec. 31, 1921, in accordance with the provisions of section 46, chapter 35 of the General Laws. This report was prepared under the immediate direction of Mr. Theodore N. Waddell, Director of Accounts, and shows tabular statements of returns made by the several county officials of their receipts and expenditures.

Respectfully submitted,

HENRY F. LONG,
Commissioner of Corporations and Taxation.

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES.

Mr. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR:— I submit herewith a report on the Statistics of County Finances for the year ending Dec. 31, 1921.

The receipts and expenditures on account of the various county activities have materially increased over those of the preceding year, which automatically affects the work of auditing the accounts; also the transactions of the small claims court require much more time to check than is indicated by the amount of money involved.

A number of special examinations have been made where there has been a change in administrative officers, which required more than one examination during the year of some of the offices. I regret to say, however, that there are some offices that have not been examined, owing to the limited force available for this work. I am proceeding with the work as speedily as possible, and, in addition, am causing an examination to be made of the accounts of the Trustees of County Aid to Agriculture, which work has recently been added to the regular work of the Division.

In this report it will be noted that transactions formerly reported under "police courts" are now included under "district courts", the term now used in the General Laws.

Returns have not been received from the probation officers of the towns of Adams and Williamstown, as is required by section 45, chapter 35, of the General Laws.

It is very gratifying to find the county officials so willing to co-operate with this Division, and to note their inclina-

tion to make such changes in their accounting methods as will make for improvement. I feel that valuable information could be made available, and the county treasurers' reports greatly improved, if certain general accounts were analyzed, so that when appropriations are made it would be possible to show the total cost of a single activity under one item, or at least to be able to aggregate the several items which make up the cost. This, however, would require special work and more time than we can give at present.

I wish to express my appreciation of the work of the examiners, both in the auditing of the accounts and the preparation of this report.

Respectfully submitted,

THEODORE N. WADDELL,

Director of Accounts.

STATE HOUSE, BOSTON, Jan. 27, 1922.

The Commonwealth of Massachusetts

DEPARTMENT OF CORPORATIONS AND TAXATION,
STATE HOUSE, BOSTON, Jan. 31, 1923.

To the Honorable Senate and House of Representatives.

I transmit herewith a report on county finances for the year ending Dec. 31, 1922, in accordance with the provisions of section 46, chapter 35 of the General Laws. This report was prepared under the immediate direction of Mr. Theodore N. Waddell, Director of Accounts, and shows tabular statements of returns made by the several county officials of their receipts and expenditures.

Respectfully submitted,

HENRY F. LONG,
Commissioner of Corporations and Taxation.

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES.

MR. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR:—I submit herewith a report on the Statistics of County Finances for the year ending Dec. 31, 1922.

The statistical tables, showing the financial transactions of the several county officers, are similar to those presented in previous reports, with the exception of Table 11, which summarizes the transactions of tuberculosis hospitals, and Table 12, which summarizes the transactions in connection with county aid to agriculture. The accounts of county aid to agriculture were examined for the first time during the year 1922, and hereafter will receive the same attention as other county accounts. Table No. 1 has been extended so as to include expenditures for special accounts which were provided for by special acts of the Legislature, and which, in most instances, were financed by the incurrence of debt.

Revenue from the various sources shows an increase over the preceding year. Receipts from district and municipal courts paid to the Commonwealth increased \$61,490.56, or 33 per cent; those paid to the county increased \$6,889.31, or 9.6 per cent; while those paid to cities increased \$116,065.63, or 27.6 per cent. Receipts from sheriffs' offices paid to the Commonwealth increased \$4,016, or 17.4 per cent, while those paid to the county increased \$43,815.78, or 38.8 per cent. The statute which raised the fee for registering deeds has now been in effect a full year, and the increase in the fees received in the registry of deeds offices was \$105,535.23, or 24.9 per cent. The total revenue received from fines

and fees increased about 14 per cent over the amount received during the preceding year.

The aggregate expenditures for all counties were more than \$300,000 less than the amount appropriated for all budget items. While some accounts were overdrawn, there still remains a considerable balance which is available for appropriations of the current year. A general improvement has been made in handling appropriation accounts, and it is to be hoped that no appropriation made for the coming year over which there is control by the county commissioners will show an overdraft at the close of the year.

The plan of appropriating all cash on hand to meet succeeding appropriations has created a conservative practice in estimating receipts, for the reason that it is desired to have sufficient funds available to meet extraordinary expenditures, especially expenditures on account of the courts, which vary greatly from year to year.

This branch of the work of the Division has progressed in a very satisfactory manner, and I wish to express my appreciation of the services rendered by the examiners engaged thereon.

Respectfully submitted,

THEODORE N. WADDELL,

Director of Accounts.

STATE HOUSE, BOSTON, Jan. 31, 1923.

The Commonwealth of Massachusetts

ANNUAL REPORT

ON THE

STATISTICS OF COUNTY FINANCES

FOR THE

YEAR ENDING DECEMBER 31, 1923

DIVISION OF ACCOUNTS

DEPARTMENT OF CORPORATIONS AND TAXATION

WHITE HOUSE BOSTON
MAY 10 1924

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES.

Mr. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR: — I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1923.

The tables showing the financial transactions of the several county offices which made a report, as provided by statute, are similar to those presented in previous reports. Certain changes in the form of presentation have been made so as to show more clearly special items which are not included in the county budget, but which are provided for either by special acts or by general law.

In the last report attention was called to the increase in revenue from sources other than taxation; the report for this year shows a material increase in this respect over that of the previous year. Receipts from district and municipal courts paid to the Commonwealth, to the counties, and to cities and towns for the year 1923 aggregated \$1,077,503.58. Of this amount, \$333,436.41 was paid to the Commonwealth, \$87,528.63 to the counties, and \$656,538.54 to the cities and towns. Comparing the returns for the year 1923 with those of the two preceding years, we find that the receipts paid to the Commonwealth increased 33.9 per cent over those paid in the year 1922, and 77.8 per cent over those paid in the year 1921; those paid to the counties increased 11.1 per cent over the year 1922, and 21.7 per cent over the year 1921; and those paid to cities and towns increased 22.1 per cent over the year 1922, and 56.1 per cent over 1921.

Receipts from sheriffs' offices paid to the Commonwealth and counties show an increase of \$45,000 over those of the preceding year. Of this amount \$16,376 was paid to the Commonwealth and \$28,624 was paid to the counties.

Revenue received in the offices of the registers of deeds is somewhat of a business barometer, particularly that relating to real estate. The fees received in the several offices show an increase in 1923 over the year 1922 of \$87,344.84, or 16.5 per cent, and an increase over the year 1921 of \$194,658.09, or 46.0 per cent.

The increases in almost every county office, while possibly not so marked as those cited, are very material and necessarily affect the work of the examination of the accounts.

The specific authority given to certain officials necessitates a careful and discriminating study of many of the items of expenditure. We are, however, endeavoring to follow a consistent policy, and it is very gratifying to note the general co-operation received. Many of the difficulties previously experienced in the expenditure of budget items have been eliminated. I feel, however, that a general revision of the present form of budget should be made and provision made for a classification which would show the costs of the various activities.

The County Commissioners are required to submit estimates to me which are reported to the Legislature. Many of the items included in the budgets are not under the control of the County Commissioners, and it would seem as though greater care should be exercised by the officials, both in making the estimates

submitted to the County Commissioners and in incurring liabilities which are supposed to have been provided for. If this were done, it would result in a more satisfactory handling of our county finances. The public in general holds the County Commissioners responsible for the county tax, yet there are numerous items which enter into the budget over which the Commissioners have no control, which fact is not fully appreciated by the public.

Conferences are held with the officials relative to the customs that have been followed for many years, and we are arriving gradually at a general understanding as to procedure. The greatest difficulty, at the present time, is to get all bills in before the close of the year. Under the law, the books close January 10, and all balances of general accounts lapse and are used the following year to reduce the amount of the county tax necessary to meet the sums appropriated for carrying on the business of that year.

If all bills contracted went through a single office, it would be an easy matter to charge the appropriation account and credit accounts payable, so that when a bill was presented it could be charged against the accounts payable and could be paid. But the incurring of liabilities by numerous officials and the failure to submit the bills before the books are closed leaves us each year with a number of bills unpaid. I realize that notices and advertisements have been resorted to by the County Treasurers but there are some who still persist in not presenting their bills. I strongly urge that these bills be held until a special appropriation is made to cover them, even though it is a year or more hence.

Section 17 of Chapter 34, General Laws, the statute governing contracts, is one that has caused considerable discussion. The examination disclosed two instances in Hampden County where the provisions of this statute were not complied with. For instance, a bill in excess of \$800 was contracted for live stock which was to replace a herd of cattle that had to be destroyed; also a bill for maps in excess of the amount permitted without advertising. The Commissioners may declare certain things to be emergencies, but, in my opinion, such emergencies cannot cover all ordinary items that are of standard price, even though the minimum price is more than the amount permitted without advertising. I regret that in cases of this kind it is obligatory to have to advertise when nothing can be gained by such procedure, but until the statute is amended so as to give greater latitude there is no alternative.

This particular branch of the work of the Division has been carried on at a minimum expense, due to the faithfulness of those engaged in the work, and I wish to express to them my appreciation for their efforts.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, BOSTON, March 15, 1924.

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES.

MR. HENRY F. LONG,

Commissioner of Corporations and Taxation, State House, Boston.

SIR:— I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1924.

The general tables of this report are similar to those for the previous year, minor changes having been made in headings in a few instances, in order to make clear the source of revenue and the purpose of expenditures and still permit a comparison with similar data published from time to time.

The estimates submitted by the county commissioners are tabulated and reported to the Legislature, as all appropriations for carrying on the work of the several counties, with the exception of Suffolk and Nantucket Counties, are made by that body. The county commissioners, while responsible for the preparation of the estimates, do not have complete control over all expenditures, particularly those of the courts.

In general the cost of county government is increasing, which automatically increases the work of auditing county accounts, the very great increase of business done by the courts adding particularly to this work, owing to the large number of accounts involved. The revenue from the courts, as well as the expenditures, as shown by Table No. 1 (Revenue of County Treasurers) of this report, is only a small percentage of the accounts which must be audited. The receipts of the district, police, municipal, and trial justice courts and of the jailers and masters of houses of correction for the Commonwealth, in the year 1914, aggregated \$41,518; in the year 1919, \$113,553; and in the year 1924, \$558,746. This shows an increase in 1924 of 392 per cent over the year 1919 and of 1246 per cent over the year 1914. The amount of money collected for cities and towns for the year 1914 was \$225,320; for the year 1919, \$245,913; and for the year 1924, \$791,261. By percentages, the increase of 1924 over 1919 was 222 per cent and for 1924 over 1914, 251 per cent.

The total amount of the financial transactions on account of the courts and the penal institutions may be obtained by considering the separate tables in conjunction with Table No. 1.

The system of fixing salaries for county officials as set forth in the statutes is such that almost every year some exception is noted. The general laws prescribe a basic salary and, in addition, a certain per cent on the business done based upon the average of the five years following each state or national census. This method, while followed for many years, is not in keeping with the best practice, for the rule of today is to eliminate the question of fees and to fix a definite salary for each public official. The frequency with which special legislation is sought to change the percentage allowed on business done is, I believe, sufficient evidence to warrant recommending a change in the basic salary and the abolition of the percentage allowance. A number of years ago much time and labor were spent in standardizing the salaries of county officials, but notwithstanding this,

A

since conditions are now different and there are constant requests for changes in the percentage allowed, I believe that compensation should be on a fixed salary basis.

The budget passed by the General Court stipulates the amount which shall be raised as a county tax and further provides that all available cash balances in the treasury shall be applied to meet the budget. This makes it imperative that the several officials conduct their business in accordance with the estimates, for there will be no surplus funds to draw upon, except savings and a possible excess of estimated receipts over the estimates used. The statute specifies that certain bills shall be paid, but a too liberal construction as to what items are to be included with such bills has resulted in serious financial situations, when insufficient funds had been raised to meet such items and those estimated in the budget.

Continued improvement, however, in the handling of appropriation accounts is noted, although we are still troubled with bills where the officials responsible for their contraction fail to submit them promptly for payment. Such neglect is inexcusable and causes needless confusion. In the past few years we have favored appropriating for unpaid bills, but it would seem that the treasurer, by repeatedly calling attention to the fact that his books must close as required by law and that regular appropriation balances lapse, has given adequate warning, so that we are justified in recommending something which will be more effective. Therefore whenever bills are deliberately or carelessly held and not submitted as required by law, I strongly favor making them a personal liability. The amount of the bills above referred to, while relatively small, includes charges for services rendered as many as five years before presentation of the bills.

Many conferences were held during the year with county officials, and it has been extremely gratifying to receive their hearty co-operation. The most troublesome questions which have been considered are those arising from what apparently is a conflict of laws; and there are a number of such laws.

The large number of examinations required to be made annually taxes to the limit the force available for this work, and the frequent changes in officials throughout the Commonwealth, which call for special audits, will necessitate adding to the force if we are to make an examination of all county offices each year. During the past year, however, we were able to audit practically every office, due to special efforts made by those engaged on this branch of our work, for which I wish to express to them my appreciation.

Respectfully submitted,
THEODÓRE N. WADDELL, *Director of Accounts.*

STATE HOUSE, BOSTON, April 1, 1925.

TABLE No. 1. — Returns of County Treasurers for the Year ending Dec. 31, 1924.

The Commonwealth of Massachusetts

ANNUAL REPORT

ON THE

Statistics of County Finances

FOR THE

Year ending December 31, 1925

Division of Accounts

Department of Corporations and Taxation :

Division of accounts

STATE HOUSE, BOSTON
MASS. OFFICIALS

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

Mr. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR: — I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1925.

The tables are similar in arrangement to those of previous years and set forth the receipts and expenditures on account of the various activities of county government.

The work of the courts is necessarily reflected in the cost of county government and it likewise affects the work of this division in the auditing of accounts. The increase in the co-operative work of counties with towns in highway construction, together with the numerous land developments and changes in ownership of properties as reflected by the returns of the registers of deeds, also adds to the auditing work.

During the past year much time has been given to the study and handling of bills, especially those of 1924 and prior years which were not presented for payment on or before January 10, 1925, the date when the accounts of 1924 should, under the law, be closed. The county commissioners, who are responsible for the approval of bills of most of the departments, could not know of contractual obligations outstanding where such contracts were made by departments other than those under their immediate control, and I felt justified in approving transfers from the reserve fund to meet old claims when requested to do so. We realize, however, that there has often been unreasonable neglect or delay on the part of merchants and officials in presenting bills for supplies furnished or services rendered, and it seemed imperative that something should be done in order that the annual report on the statistics of county finances might contain a complete statement relative to the cost of government of a given year. In attempting to do this, I have had the co-operation of the county commissioners and of the county treasurers. The treasurers have resorted to advertising the necessity of presenting bills promptly and have sent out personal requests to this effect. While we have not entirely overcome our difficulties, we are making progress and if we continue the methods followed during the past year, I feel certain that complete transactions for the year will be reflected by the annual report.

The estimates of the sums needed for carrying on the work of the several counties were filed promptly and submitted to the Legislature as required by law. The supporting statements show that in some cases a great deal of study has been given to the preparation of the budget estimates; and while there is a general increase in the amounts requested, due to increased work to be done, I do not see how the estimates can be reduced unless there is a reduction in activities.

C 76 1/2
1925 A

A comparison between the amounts expended last year for highway purposes with the amounts expended for the same purpose as given in our reports a few years ago shows an enormous increase. This is due, in part, to the co-operative work between the counties and the towns, but more particularly to the increased expenditures by the Commonwealth for state highways, a portion of which is assessed upon the counties. While these assessments are apportioned over a number of years, the figures show that in a short time they amount to a considerable sum, which must be included in the budget, even though no new project is contemplated for that year. The apportionment of assessments has the same effect on the county tax as would be the case if loans were made for highway construction. As new and better highways are constantly demanded, it is right and proper to have the cost reflected in the current year's levy, at least to the extent that the charges are annually recurring.

During the year some three hundred and fifty examinations of county accounts were made, which practically completed the circuit, and in addition several special audits were made on account of changes in officials. With the limited force available for this branch of our work, a special effort on the part of each member is required in order to make the necessary examinations, and I wish to express to them my appreciation of their work of the past year.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, Boston, March 1, 1926.

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

MR. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR: — I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1926.

The general plan of the report is the same as for previous years and makes available comparable figures over a period of years. The classifications in Table I, which is prepared from the returns of county treasurers, correspond, so far as possible, with the items of the estimate sheet upon which the annual budget is based and also with the budget items as enacted. If a comparison of the expenses as shown in Table I for the years 1925 and 1926 is made, it will be noted that, in all but four items of the general accounts, there was an increase of expenditures in 1926 over 1925, this necessarily being reflected by an increase in the county tax. The receipts as given by Table I show a decrease in 1926, when compared with the receipts of 1925, in seven of the fifteen classes listed; and as is usual, such decreases must be met by general taxation.

In previous reports attention has been called to the difficulty of getting all bills in for the year before the books are closed. Under Section 29, Chapter 35, General Laws, the regular appropriation accounts must be closed on January 10 and any balance which is represented by cash is applied to meet the budget of the succeeding year; but in case there is a contractual obligation outstanding, it should be charged against the appropriation account, so that all of the expenses of the year may be shown in the report. Some improvement in the matter of presentation of bills is noted from year to year, but during 1926 I refused to approve transfers from the reserve fund to pay bills of previous years and insisted that such bills be held until an appropriation was made to meet them.

The auditing of the books and accounts of the various treasurers disclosed a number of cases where bills of a previous year had been charged to a succeeding year's appropriation. Section 44 of Chapter 35, General Laws, requires a certificate to be placed on the treasurer's cash book if found correct, and I have deemed the practice referred to as sufficient reason to warrant a refusal to place such a certificate on the books. I realize that there are some instances where a particular charge is contingent upon the completion of certain work, but in other cases there can be no question as to the manner in which the accounts should be handled. The old custom of charging previous years' bills to a succeeding year's appropriation has been allowed in the past, as officials have believed that Section 14, Chapter 35, General Laws, gave them a great deal of latitude in exceeding appropriations. It has been the endeavor of our office, however, to have the county officials

A

P.D. 29.

recognize the value of the budget, for I believe that the Legislature in passing a budget intends that it shall reflect the anticipated cost of the various activities enumerated.

The provisions of the statutes relating to contracts are generally carried out faithfully, but in a few cases it has been necessary to refuse approval of the books until the legal requirements regarding such contracts have been complied with.

The work in connection with the auditing of county accounts is ever increasing, and during the past year we have received the co-operation of every official whose accounts we are required by law to examine. I feel that the field has been exceptionally well covered by the limited force of examiners we have available for this branch of our work, and I wish to express to them my appreciation for their work.

Respectfully submitted,
THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, Boston, March 31, 1927.

The Commonwealth of Massachusetts

ANNUAL REPORT
ON THE
Statistics of County Finances
FOR THE
Year ending December 31, 1927

Division of Accounts

Mass.; Department of Corporations and Taxation

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

Mr. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR: — I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1927.

The plan of the report is the same as for previous years and consists of twelve tables, as follows: —

- Table No. 1 — Returns of County Treasurers.
- Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 — Returns of Clerks of District and Municipal Courts.
- Table No. 4 — Returns of Trial Justices.
- Table No. 5 — Returns of Registers of Probate.
- Table No. 6 — Returns of Registers of Deeds.
- Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Court.
- Table No. 8 — Returns of Sheriffs.
- Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 — Returns of Treasurers of Tuberculosis Hospitals.
- Table No. 12 — Returns of County Aid to Agriculture.

Table No. 1 is prepared from the returns made by the county treasurers and shows the receipts and disbursements of the office. It should be read in conjunction with the other tables in the report, as under the law certain offices may expend from their receipts, while others act as an agency, as in the case of clerks of courts who receive bail deposits and probation officers who receive deposits for making restitution and the payments for non-support cases. Tuberculosis hospital districts have a separate treasurer's account, and it is only the amount that is advanced for maintenance in anticipation of the assessments that appears in Table No. 1.

The work of auditing the county accounts is constantly increasing, and while there has been an earnest spirit of co-operation on the part of the several officials, I feel that, in some cases, the work necessary for the conduct of their office causes them to lose sight of the fact that it is essential for a public official, who is responsible for the receipt and disbursement of money, to keep complete and accurate records of every financial transaction. While, in general, county officials appreciate that laxity in their work will necessarily add to the work of the auditors, yet there are those who continue in their careless methods, and the time required to audit the work is unreasonably long. This is particularly true of some of the probation officers and

C 762

A
clerks of district courts, and much time could be saved if the officers would check their accounts and locate their errors instead of leaving such work to the examiners of this department.

The accounts of the several treasurers show the major cash transactions, and great care should be used in checking bills before payment is made. These accounts continue to show improvement. In fact, as I reflect on the work of the past nine years, it is extremely gratifying to note the progress made, but under our present statutes there is no provision for a local auditor to audit the vouchers prior to their payment; the treasurer is personally liable for disbursements and in a way becomes an auditor and disbursing officer. This seems unfair to the treasurer of the county when there is such conflict in the laws as to the bills that may be legally contracted.

During the past year, in some cases, books were not approved for various reasons, such as: failure to withhold payment of prior years' bills until appropriations or other provisions were made to meet them; lack of supporting vouchers; district attorney's expenses chargeable to State paid by county; expenses of autopsies not authorized; bills in excess of \$800 not advertised; expense of probation officer in excess of statutory allowances; fees paid to salaried officials; payment of architects on account of buildings for which no appropriation or authorization had been made; and unauthorized transfers from the reserve appropriation, etc. Many of these conditions have been remedied and certificates can be given, but in some cases nothing short of legislative action can relieve the treasurer of personal liability, and I must say that I do not know of a single instance where the treasurer was what might be termed careless. The statutes appear to give a great many officials exclusive authority to incur liabilities, so that it is extremely difficult to determine what is and what is not authorized by law.

The number of examiners on this work is the same as in previous years, notwithstanding the increasing amount of work to be done, and a few of the offices could not be covered during the past year, but they have been covered early this year.

To the examiners engaged on county accounts, I wish to express my appreciation of their work.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, Boston, June 1, 1928.

REPORT ON THE STATISTICS OF
COUNTY FINANCES

Mr. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House, Boston.*

SIR: — I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1928. The plan of the report is the same as that for previous years, and consists of the following tables:

- Table No. 1 — Returns of County Treasurers.
- Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 — Returns of Clerks of District and Municipal Courts.
- Table No. 4 — Returns of Trial Justices.
- Table No. 5 — Returns of Registers of Probate.
- Table No. 6 — Returns of Registers of Deeds.
- Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Court.
- Table No. 8 — Returns of Sheriffs.
- Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 — Returns of Treasurers of Tuberculosis Hospitals.
- Table No. 12 — Returns of County Aid to Agriculture.

The tables give a summary of the financial returns of the several officers and boards receiving or disbursing public funds and are arranged with appropriate headings so as to indicate the items that do not pass through the treasurers' accounts.

Table 1 is prepared from the returns made by county treasurers and shows receipts and disbursements of that office. Items not included in this table are handled in accordance with specific statutes governing them, and while it may seem desirable to show in one table the complete financial transactions of all county offices, boards and commissions, it is not practicable.

Annual audits of the accounts of the three hundred or more offices are required, and although we were unable to make a complete audit of all accounts during the year 1928, an audit has been made of all accounts at this time for that year.

In making the examinations, very general co-operation and willing assistance from the several officials have been received, but the work could be rendered less difficult if, in certain offices, greater care was taken in recording the transactions and classifying the accounts as is provided for by the record books and as is required by statute. Much time is required in adjusting accounts payable to the State, county, and to cities and towns. I do not believe that the purpose of an audit is to do the bookkeeping, but too frequently we find that little or no attempt on the part of the officials has been made to prove the accounts. It

appears as though the inaccuracies were left for the auditor to discover; in fact, some of the officials admit this. This laxity, however, is found in relatively few offices, but the number is sufficient to consume considerable of the auditors' time and a resulting expense to the Commonwealth.

In some cases, approval of the books was refused temporarily, pending adjustment of accounts. Some of the reasons for withholding approval were: Insufficient vouchers; rate of pay in excess of amount stipulated in the statutes; expenses of inquests not authorized; traveling expenses not authorized; district attorneys' traveling expenses paid by county; and salaried officers paid fees who are not entitled to receive them. Most of the cases were adjusted before completion of the examination, or within the time permitted by statute and notice received to that effect, while some will carry over to the next regular audit. It has not been found necessary to formally report these cases to the Attorney-General.

We are operating under statutes that are difficult to adjust to changed conditions. This is particularly true of transportation expenses which appear in practically all of the several offices and official accounts. If the statutes could be codified and revised to meet changed conditions, it would be of great benefit to all, especially to the officials. This would not necessarily mean the passage of more laws, but the clarifying of existing laws.

In studying the tables in this report it will be seen that Table No. 1 is arranged and classified as outlined by the budget as approved by the General Court. Special accounts are included, although they represent special appropriations. The statutes provide that certain funds shall be credited without an appropriation, that amounts appropriated shall be turned over to a commission, so that the amount withdrawn from the treasury by requisition does not necessarily mean actual expenditures.

Capital accounts, for which a loan is authorized, should not be financed temporarily by revenue with the expectation that subsequent reimbursement will be made when the loan is issued. This confuses revenue and non-revenue cash; furthermore, the use of revenue money is governed by General Law. Special projects, authorized by special acts, are financed in accordance with the provisions of such special acts.

The use of receipts, together with an appropriation, is contrary to the budget theory of government, and I believe it is generally agreed that a government to be successful must recognize the soundness of the budget theory. It is the only way to obtain the systematic planning of expenditures. The statutes which provide that receipts shall be added to the amount included in the budget should be amended so as to make provision for all departments to operate on the basis of a flat appropriation.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, Boston, April 15, 1929.

DEC 8 1930

STATE HOUSE, BOSTON

MASS. OFFICIAL

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House
Boston.*

SIR: — I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1929. The plan of the report is the same as for previous years and consists of the following tables:

- Table No. 1 — Returns of County Treasurers.
- Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 — Returns of Clerks of District and Municipal Courts.
- Table No. 4 — Returns of Trial Justices.
- Table No. 5 — Returns of Registers of Probate.
- Table No. 6 — Returns of Registers of Deeds.
- Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Court.
- Table No. 8 — Returns of Sheriffs.
- Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 — Returns of Treasurers of Tuberculosis Hospitals.
- Table No. 12 — Returns of County Aid to Agriculture.

The tables give a summary of the financial returns of the several officers and boards receiving or disbursing public funds.

Table No. 1 is prepared from the returns made by county treasurers and shows receipts and disbursements of that office. Certain other items are expended from revenues in accordance with law, and these amounts are shown in the other tables with appropriate headings and must be read in conjunction with Table 1 in order to arrive at the total receipts and disbursements of all county activities.

County taxes show an increase of \$330,622.59, or 4.32 per cent. Increase in revenue is shown in the receipts from fines, costs and fees from Inferior Courts and Trial Justices, and Jailers and Masters of Houses of Correction; in fees from Clerks of Courts; from labor, board, etc., of Jailers and Masters of Houses of Correction; from Training Schools, Agricultural Schools, Hospitals, and from Peddlers' licenses. The greatest decrease is shown in fees from Registers of Deeds, which was \$50,287.89, or 9.92 per cent.

The amount of funded or fixed debt issued during the year shows a decrease over the previous year of \$632,000, or 53.45 per cent. The amount of funded or fixed debt paid was more than \$238,000 in excess of the amount of debt issued.

The expenditures for salaries of county officers and assistants, fixed by law, and clerical assistants in county offices show an increase of less than one per cent.

Salaries and expenses of District Courts and Trial Justices increased \$46,338.45, or 4.41 per cent. Criminal costs in Superior Courts decreased \$31,776.38, or 5.36 per cent, and civil expenses in Supreme, Superior, Probate and Land Courts decreased \$24,390.78, or 4.42 per cent. The expenditures for highways, exclusive of the special accounts, increased \$349,279.69, or 18.21 per cent.

The books and accounts of all county officers under the supervision of this department have been examined, and, in addition, many special audits have been made. The accounts, in general, are satisfactorily kept, but there are still some officers who cause unnecessary work to our auditors by neglecting to keep their books posted up-to-date, by having incomplete records, by failing to reconcile bank accounts, and by general carelessness. However, many of the officers realize the necessity of accuracy as to detail, and those who fail to appreciate this necessity are subject to criticism. Where such laxity exists, it sometimes means actual loss of money, besides causing unnecessary work in making the audit. It is very essential that the officers have a thorough knowledge of the laws relative to the disposition of receipts and that they exercise the greatest care in keeping their records.

Improvement has been made, year by year, in keeping expenditures within appropriations, but under our present organization sufficient provision has not been made to record liabilities when contracted, and while no deliberate incurrence of a liability in excess of appropriation can be cited, it occasionally occurs that contracted liabilities are lost sight of, and, therefore, an appropriation is exceeded. This is due to divided responsibility, as the county commissioners have only partial control over certain of the appropriation accounts. A reserve fund has been provided to meet extraordinary or unforeseen expenses, and this should permit the work to be carried on without overdrafts, except in a very few cases; and the exceptional cases can be provided for by the emergency statute now on the books. A more systematic planning of expenditures and a current internal check on contractual obligations should be maintained.

We find that the treasurers are exercising necessary care in withholding payment on bills of previous years, but, wherever there are unpaid bills of previous years which have been paid without an appropriation, the examiners are put to an unreasonable amount of work in checking these bills. While we have been forced to include in the budget each year an item for bills of previous years, there is little or no excuse for continuing this practice. The statutes are clear on this point, specifying that all bills must be presented on or before January 10 of the year following.

If there is an outstanding claim on account of incompleting work, or items of a similar character, notice should be filed with the treasurer, in order that the appropriation account may be debited and accounts payable credited, thus more accurately showing the cost of government in a given year.

I fully appreciate the efforts now being made by the accounting officers but wish to urge the several officers contracting liabilities on the part of the county to cooperate with the treasurers, so that the "unpaid bill" item in the budget may be eliminated or materially reduced.

Respectfully submitted,
THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, Boston, May 1, 1930.
